

Salem-Keizer Transit is Changing!

Come Participate in a Community Dialogue about the Site Selection of Two New Transit Centers

Your input is needed to help identify an appropriate site for the facility and to help design a place that will meet the needs of your community. This meeting is the second in a series of three community meetings—designed to engage businesses and residents in the transit center process.

As part of its continuing efforts to enhance mobility in the Salem/Keizer area, the Salem-Keizer Transit District has identified a need to construct two new transit centers—

One in Keizer near the intersection of Chemawa Road and River Road N. and a second in South Salem near Madrona Avenue and South Commercial Street.
