Supplemental Packet

BOARD OF DIRECTORS MEETING
January 26, 2017

Agenda Item No. H.2 Regional Service Public Comments
Comprehensive list of all public comments received during CARTS Redesign Outreach
Completed in September and October, 2016

Timestamp: 9/7/2016 6:11:34 PM

What are your overall feelings about the proposed changes?: Strongly Like

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I believe it would be convenient to add even more times, every two-three hours. I would like to see a bus that connects directly to Portland, or even Beaverton Station. Connections to the big city is definitely a huge need. The current carts bus that goes to Willsonville, where someone could then take the train/bus to Beaverton Station, then to portland, is to many transfers, too much time, and people wouldn't have much time before having to take all the different busses home. Connections to other cities are great for job commuting, visiting friends and family, and other business. I hope to see this development. Even having Max come up to Salem would be great, or other Trimet services.

Which CARTS bus do you currently ride?: CARTS 10

What city or town do you live in?: Salem

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Woodburn, Portland-Metro area

Which proposed bus stops would you use?: 10

Name: Forrest Allen

Comprehensive list of all public comments received during CARTS Redesign Outreach  
Completed in September and October, 2016

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I think you are improving the system with the changes. I still wish the Polk Co. 45 could go to Falls City on call.

Which CARTS bus do you currently ride?: CARTS 10, CARTS 40, CARTS 50

What city or town do you live in?: Falls City, OR

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Salem, Brooks, Stayton

Which proposed bus stops would you use?: Dallas Hospital, transit mall, the 4th st. one in Stayton, Monmouth

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Although the increased number of runs on Route 10 is helpful, the timing of the runs does not work well for someone with a typical work schedule. For example, if I leave Woodburn at 6:29 am I arrive in Salem in time to start work downtown at 7:30 am. In the afternoon, the 3:00 pm bus to Woodburn in only 7.5 hours later, while the 5:30 pm bus is 10 hours later. Neither is convenient for someone working an 8 hour shift. A bus at 4:00 pm or 4:30 pm would work much better. I do not know if I could continue riding the bus if the proposed schedule is adopted.

Which CARTS bus do you currently ride?: CARTS 10

What city or town do you live in?: Woodburn

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Salem

Which proposed bus stops would you use?: Woodburn Transit Center, Salem Transit Center

**Timestamp:** 9/8/2016 4:38:40 PM

**What are your overall feelings about the proposed changes?:** Neutral

**What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.:** I’d like evening/night service to McMinnville from Salem. There are no routes that go out there, or even anywhere near that direction.

**Which CARTS bus do you currently ride?:** I do not ride any CARTS buses.

**What city or town do you live in?:** North Salem

**What cities or towns do you travel to for work, shopping, medical appointments, etc?:** To Pentacle Theatre in very South West Salem, and to McMinnville for possible rehearsals at their local theatre.

**Which proposed bus stops would you use?:**

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Stops at Sublimity DHS is a huge need in our community. This is how some of the "deep poor" (new term being used) access cash, food stamps, employment related day care and even domestic violence services. The stop is essential to our community as the poorest of the poor take steps to gain self sufficency.

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What city or town do you live in?: Stayton

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Mill City

Which proposed bus stops would you use?: None of the proposed ones.

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I would not eliminate service in the Santiam Canyon. Doing so would limit the ability of people who live in areas with already limited resources to get the resources (groceries, medical care, work) that they need.

think having a meeting in the Canyon - possibly Mill City where the Canyon Crisis Center
is - is a great idea. With the large homeless population, many people don't have access to
computers, newspapers, radios, etc. Could you post fliers around town to notify people
of meetings?

What are your overall feelings about the proposed changes?:

My only issue with the bus schedule is as follows: I go to school in Salem at Oregon Institute of Technology. I go Monday through Thursday 5:30 pm - 10:30 pm. I ride the bus to class, but there is no transportation back, so I've been having to walk back by myself. So anyways, I believe you made my day just knowing that I might be heard. Trip Link - I needed it several times, but I've been given the reason that I've got to be disabled before they would come assist me in my journey. P.S. get up too early am, none run that late. I ride #30 and #2 to class.

Completed in September and October, 2016

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I wouldn't make any changes to the bus route because I feel the times and stops are good. I've been riding the CARTS my whole life from Gates and Mill City to work in Salem, for shopping and visiting family. If the CARTS stopped coming to Mill City and Gates I don't know what I or many people I know who also ride would do; how we'd get to work, etc. I am thankful there's been a CARTS bus that comes down the Canyon and I hope it stays like that.

Timestamp: 9/16/2016 1:51:24 PM

What are your overall feelings about the proposed changes?: Strongly Like

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: It would be nice and beneficial for me considering that I'm a student in Salem and I would have more flexibility having this new schedule. I only think that putting a route a little bit late from Salem instead of the bus at noon it can work better considering work schedules of the people who ride the bus.

Which CARTS bus do you currently ride?: CARTS 30

What are your overall feelings about the proposed changes?: Neutral

What changes, if any, would you make to the proposed plan? This can include 
cities and towns served, bus stop locations, trip times, number of trips per day, 
etc.: In my personal opinion, there should be more trips between Dallas and Salem via 
CARTS 40 throughout the day, and look into getting fed taxpayer funding in all counties 
and/or cities CARTS serves, to increase trip numbers for every CARTS route that is exists. 
Buses should also be replaced with better models of the same bus, so that it can provide 
better transportation for all riders. Though this part eith take time to build funding, it will 
help riders with their experience. Also asking Trimet on what gundings they get, so that 
CARTS and Cherriots can look into some other sources to increase funding.

Which CARTS bus do you currently ride?: CARTS 40

What city or town do you live in?: Monmouth

What cities or towns do you travel to for work, shopping, medical appointments, 
etc?: Monmouth, Dallas, Independence, Salem

Which proposed bus stops would you use?: Main @ Warren, Salem Transit

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Mill City needs public transportation. I would like to see more pick ups in the canyon with more flexible schedules to accommodate our citizens who work in Stayton and surrounding areas after the times that are currently being offered.

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What city or town do you live in?: Mill City

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Stayton, Salem

Which proposed bus stops would you use?:

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Gates isn't the end of Marion County. Detroit and Idanha people live in Marion County. There are zero social services from Mehama to Idanha. Mill City, Gates, Mehama have to be more rural than Stayton or Salem. Salem, Silverton, Monmouth, etc., have medical transports, taxis and other systems. Also, someone in need in Salem is more likely to get a 1 mile ride to a doctor than someone in Gates who would need a 60 mile round trip ride to the doctor. From Mill City, Gates, Lyons and Mehama have no taxi's, other bus service and zero social services. Please email the recommendations as soon as they can be sent. Thank you!

Which CARTS bus do you currently ride?: CARTS 30

What city or town do you live in?: Mill City

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Stayton, Salem

Comment #: 55 | Date Received: 9/20/16 | Event: Elected Officials Meeting, Stayton

Timestamp: 9/23/2016 2:23:24 PM

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include
cities and towns served, bus stop locations, trip times, number of trips per day,
etc.: Not to eliminate route 30. The City of Gates is not a position to help fund
transportation, unless it could receive grants, because Gates receives the lowest amount
of taxes per $1,000 of any city in Oregon. The tax is $0.28 per $1,000 and not all of that
comes to the city.

Which CARTS bus do you currently ride?: CARTS 30

What city or town do you live in?: Gates

What cities or towns do you travel to for work, shopping, medical appointments,
etc?: Stayton and Salem

Which proposed bus stops would you use?: The stops in Gates (and Mill City) were
eliminated in the proposal

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I feel you are building your ridership at very high price for the canyon people. You just are not interested in our needs. As I said before, this is a grant funded system. You feel making a more convenient system for the flat landers is more important than serving the needy in the canyon.

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What city or town do you live in?: Gates

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Gates

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: This is an injustice to the poor and elderly. Mass transportation like CARTS should be expanding, not declining. This service should be subsidized by the state of Oregon. Why should we have to drive to Salem to shop, see doctors, work, and use the Capitals facilities. Mill City, Mehama, Gates, are not your rich suburbs. We are working class and

What are your overall feelings about the proposed changes?: Unsure

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: More shelters are needed (Salem Clinic on Fairgrounds Rd). Many elderly people get on and off with their walkers, mini-seat not adequate, seat teeters and leans and is not large enough to stable.

Changes at Chemeketa not helping with ability to wait for bus and stay relatively safe, warm and dry. This is especially true for individuals with mobility issues. With #3 cannot tell which bus is coming in time to sprint out and get on when in CCC waiting area Bldg 2

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What changes, if any, would you make to the proposed plan? This can include
cities and towns served, bus stop locations, trip times, number of trips per day,
etc.: Route 10 should be allowed to travel into and out of Keizer Station transit center to
make this route more useful to more people, Northbound maybe, and only maybe on
southbound 99E. This flex option should make route 10 more useful to more people.
Route 10 should have ten round trips in schedule, the sooner the better, this schedule
should focus three round trips in am and pm commute time.

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: like many riders of CARTS 40, I work 8-5 in Salem, but the first stop in Independence gets me to Salem at 6:50am, and leaves at 6:30pm to go home. So I wait
over an hour both ways in Salem. Please update the schedule to accommodate us-get to Salem around 7:30, and leaves Salem around 5:30. Nobody rides the next scheduled cart bus, which gets us downtown way too late- at about 9:30. What good is this? For many of us state workers, we are forced to find other transportation options because this scheduling is so ridiculous. Now that you changed the last departure for #40 to 6:30pm, it's even worse. Thank you

Completed in September and October, 2016

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I've used the buses for work, etc. Although I agree with the added time midday to Woodburn - Salem, I do not agree with the 2 stops because it can impact riders like me who need a reasonable stop/distance to where I live. (I used Lincoln/Carol ongoing and still do). I also looked at the times and realized the changes boarding are significantly impacted by about 30 minutes but the drop off times are no sooner to be called "Express Bus" so I believe that adding a stop wouldn't be a problem because the time it takes to pick up riders/drop off that utilize the routes is worth it because so far, it doesn't look like it would be an improvement, on time/efficiency but limits riders who need it. Why not have express and regular routes? to accommodate more people and have an express option for workers. The Mt. Angel route is good, to Woodburn.

Which CARTS bus do you currently ride?: CARTS 10, CARTS 20

**What are your overall feelings about the proposed changes?:** Strongly Dislike

Before the schedule change, it was very convenient for the Regis (grade school) riders to Mill City and Gates to ride the bus. Now the schedule causes the bus driver to sit and wait at several stops because it arrives too early. The Mari-Lynn school gets out and the driver stops and waits behind the school bus stops. We arrive in Mill City and Gates late. I filled this out before 9/29/2016.

What are your overall feelings about the proposed changes?: Somewhat Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: The towns nearby I think wouldn’t take much time to stop at nearby towns for picking up people, Mehama, Mill City, Lyons, if there were some. But people probably go like Holidays, vacation and weekends but day trips and not everyday, would cost the drivers time and what money they would be making if not the cost of running the bus and gas. I was just saying the trip for a visit not everyday, probably once a year.

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I work out at the casino, right now I have to call in to have 50 drop me off in
Comprehensive list of all public comments received during CARTS Redesign Outreach
Completed in September and October, 2016

Rickreall, that's only when he has me on his roster. I call in night before to double check ride, been a couple time I'm not on roster. I catch 50 at 6:15 am Walmart Dallas to be dropped off at Rickreall Park and Ride to catch the 2X at 6:50. If I end up having to go into Salem to catch the 2X I miss the 1st bus 2X at West Salem Edgewater and Rosemont 6:33 am, CARTS 40/6:35am, CARTS 50/6:41 coming all the way in, 2X 6:30 am 40/6:41am 50/6:49am, so I'm already screwed no matter what I do.

*What are your overall feelings about the proposed changes?:* Strongly Dislike

*What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.:* We ought to have a minimum of four trips per day to Gates. It has been mentioned that 73% of the population in our area live in Linn County. However, 99% of the same population work and shop in Marion County in the Stayton and Salem area. It was also noted that these grants which allow CARTS to operate are intended to serve those who are elderly and handicapped. Unlike the other areas served by CARTS, our area has a disproportionate number of elderly and handicapped. We need the service more than other areas, which may have other available transportation (retirement home vans, taxi service, etc.).

*Which CARTS bus do you currently ride?:* CARTS 30

*What city or town do you live in?:* Gates

*What cities or towns do you travel to for work, shopping, medical appointments, etc?:* Stayton, Salem

*Which proposed bus stops would you use?:* Gates

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.:

Oregon is experiencing a change in population demographics. Rural communities are far more impoverished and graying over the age of 60 and this will continue to outpace suburban and urban areas. To keep the elderly in their homes is healthier and improves the quality of their lives. People in poverty need transportation as well. Both populations need access to transportation to reach quality food sources, preventative care and care for chronic health problems. You need more routes instead of fewer.

Which CARTS bus do you currently ride?: I do not ride any CARTS buses.

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Comment, not change: Even though the majority of CARTS riders in the canyon may be living in Linn County, Marion County and Salem area provide us more of the shopping, medical or service opportunities that we use on a regular basis. Albany, the larger community in Linn County, is further away from canyon communities. Stayton is another community that canyon residents need to travel to for services.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Strongly like expanding to 4 trips, strongly dislike cutting service, 2 trips. Add a Salem to Gates run that permits commuting from points east to the area - people do work in the area. End the deadhead run - store the bus in Gates/Mill City. The proposed 2 trips in a minimum. Extend the route to Detroit - particularly in summertime. Shelters are needed at all stops - fewer trips means longer waits. Establish an electronic reader board at each stop so potential riders can know the bus is coming.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: In 90's our small communities, Lyons, Mehama, Mill City, Gates, Detroit & Idanha, felt we'd have a better voice if we combined & we founded the North Santiam Canyon Economic Development Corp. Rural development initiatives led us in meetings. We came up with a Strategic Plan. One important part we felt was transportation. We had many meetings including even in our home and meetings with officials in Salem and we succeeded in getting CARTS to come up the canyon to Gates. Then a bus shelter was installed across from the PO. Early on I sold tickets and passes for CARTS at the Gates PO. I've called CARTS in past years for more schedules and was told no money to print any. So I photocopied schedules myself at the Gates PO and have one posted on the window that can be read from outside. We have many low income, elderly and disabled
people in our area. We need CARTS and I think more publicity that CARTS comes to our communities would help increase ridership. I also see Hikers, pedal bikers and other waiting for the CARTS bus at the bus shelter. The bus sometimes doesn't even stop and wait, just pulls in by the bus shelter and leaves right away without stopping and waiting. I've been a Board member of the NSCEDC-EDC Grow since the 90's. Let's keep transportation, CARTS, in the canyon.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: No bus service a terrible loss for all of our community here in Gates as well as all of the canyon east and west. I personally do not use it, but I feel it is a great help to all of those that do, from a few to many in all lifestyles. Many do not subscribe to the newspaper, as well as those that do not have internet to know of the meeting or maybe cannot get here.

What are your overall feelings about the proposed changes?: Neutral

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Not do the bus stops so early, such as 6 am, because many people do not have appointments, school or anything else until 8 am. A reasonable time in the morning would be 7 am, but other than that the proposal seems good for all of the communities because it is not just three stops anymore, now it is four stops with various time choices.

What are your overall feelings about the proposed changes?: Somewhat Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I like that there are more rides for persons leaving Monmouth late, but getting into Monmouth before 8:00 am is important. Many people have an 8:00 am job. If you can keep the time of leaving Salem Transit Center at 7:00 am or 7:10 am, that would be great. Especially if we will get to Monmouth before 8:00 am.

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I am not asking for a change. I just write to inform that I feel bad about this proposal. I am currently a Chemeketa student who by now adjusted my schedule to my classes. If this proposal would happen, it would make it hard for me. Right now I rely on the bus for my trip to the Dallas campus. My schedule is already set up. I have no way of coming on my own. No access to a car. I really need my current bus schedule functioning as it is. Please keep the schedule as it is. Thanks for the survey opportunity.

Completed in September and October, 2016

What changes, if any, would you make to the proposed plan? This can include
cities and towns served, bus stop locations, trip times, number of trips per day,
etc.: More route 40 trips per day. No issues with stops, but a handful of routes allotted
per day undercuts WOU student population. I'd go with hourly if feasible. I do like the
new 8 am/8 pm times though, keep, very convenient. Maybe reduce # of Independence
stops to 2 max. It's not that big of a town.

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I'm a student at Central High School in Independence. Mon, Tues, Thurs, Fri when I ride, I usually wait at school until 4:30, sometimes Wednesdays. The spring bus schedule change is an amazing deal, I can take it in the morning and be at school right on time. But, the afternoon, yes! I'm off the clock and go home even earlier for the remainder of the year. I strongly think this would work not only for a transfer student like me, but

Timestamp: 10/19/2016 10:51:28 AM

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: As a student at WOU, my classes start as early as 8 am. Arriving at WOU after 8:00 am would be detrimental to my student success (as well as other WOU students who live in Salem). There should be more trips along this route daily - earlier trips and later trips, and more than one bus running the loop would be nice.

Which CARTS bus do you currently ride?: CARTS 40

What city or town do you live in?: Salem

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Monmouth

Which proposed bus stops would you use?: Monmouth Ave @ Church (WOU Library)

Comprehensive list of all public comments received during CARTS Redesign Outreach Completed in September and October, 2016

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: I will be living 2 miles outside of Dallas on Kings Valley Dallas Dr, it would be helpful to have a stop closer, but I'm sure it is doable to work around. The Route 50 bus might be such an option if it had more frequent stops.

Which CARTS bus do you currently ride?: CARTS 40

What city or town do you live in?: Monmouth, moving to Dallas

What cities or towns do you travel to for work, shopping, medical appointments, etc?: Monmouth/Independence, Dallas, & Salem

What are your overall feelings about the proposed changes?: Strongly Dislike

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: The schedule as is allows me to leave Dallas and go into Independence at 2:55 pm. I can perform my needed chores in Independence, get back on bus at 4:24. With proposed changes I would be getting on bus at 7:54, 3.5 hours later.

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Many people in rural Oregon have limited income and limited mobility and rely on the bus for transportation to vital services. Individuals with medical conditions, the elderly and families with small children can not wait all day for return trips to home. I would like to suggest that one day a week more than the two runs per day are provided. If the expanded service is advertised people that rely on the bus to go to appointments can schedule around the extended service day.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: WHY is the transit system limited to just the Salem/Kaiser area. Is it not feasible or desired to expand county wide or even multi county like the Trimet service that services multi counties? Just asking as I've been a rider of the disabled van service for years, back when it was called Wheels and we had Saturday service. We are an aging population and needs change AS we age. We also have many college level students who depend on mass transit to get to both classes and work. Diversity in population depends on diversity in other areas as well. I doubt if any one really wants me driving a car when my health limits my abilities. I made the decision to relinquish my drivers license due to my belief my abilities to safely drive do not justify my desire to drive

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include 
cities and towns served, bus stop locations, trip times, number of trips per day, 
etc.: I know this isn't about carts but you changed the times on routes and guess what? 
The busses are still late. Not only did you cut stops (specifically in the 7, making some 
stops and hour wait and wasting the 8/8a consept). A lot of people who ride rely on the 
bus for work transportation. When you're late you don't get fired, we do. Also you keep 
making changes no one wants and is just making the system worse. Get it together.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: On behalf of the seniors in the Santiam Canyon we are very distressed with the proposal of dropping the Canyon Connector Carts service for Mill City, Gates, Mehama & Lyons. Many of the seniors that I have talked with have challenges with transportation out of the Canyon due to age related & health related problems. The Carts service provided a means for our aged and health impaired seniors to travel to Stayton and Salem. From what I have learned the Carts service has been frequently utilized by both seniors and the youth of the Canyon. I believe that the federal dollars that support the Carts service was at least partly for transportation service for seniors and the disabled, how will the Canyon seniors and disabled receive service if you discontinue the CARTS service for the communities of Mill City; Gates; Mehama & Lyons? The Canyon Senior Center strongly urges you to continue CARTS service to the Santiam Canyon communities of Mill City; Gates & Lyons.

Which CARTS bus do you currently ride?: CARTS 30

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Greetings Cherriots Staff,

The City of Dallas Community Development Department has reviewed the CARTS Redesign Draft Plan, and would like to offer the following feedback; CARTS 45 - Polk FlexThe City of Dallas greatly appreciates the proposed retention of the CARTS 45 dial-a-ride service in the CARTS Redesign Draft Plan. This service enables people with disabilities to live fuller, more independent lives, and is of particular importance given the aging population in Dallas, and the concentration of nearby support services for seniors and people with disabilities. However, we encourage Cherriots to explore whether improved scheduling and dispatching technology, such as is used on the West Salem Connector, could reduce the amount of advance notice required to arrange a trip.Stop Consolidation City staff were concerned when Cherriots first proposed reducing the number of stops within Dallas. However, after reviewing the proposal within the CARTS Redesign Draft Plan, we find the proposed stop locations at Walmart, Downtown, and the Hospital to be a reasonable compromise. While we wish more stops had been retained, the likely increase in speed and reliability should make this a worthwhile trade-off. However, as the City of Dallas continues to grow over the coming decades, there may come a time when reevaluating this decision becomes warranted.Promote Through-Routing The draft plan describes a "Scheduled Connection with CARTS 10," however from examining the schedule it appears that CARTS 40 is actually being through-routed with CARTS 10, allowing a one-seat ride from Dallas to Woodburn. If this is the case, this fact should be more clearly advertised, both in printed schedules (e.g. Bus continues as CARTS 10 to Woodburn) and in promotional materials. In particular, we believe having a direct connection between Dallas and Chemeketa Community College in Salem would be advantageous to Dallas residents.Span of Service We believe Dallas residents will find the increased span of service useful, with the new later 7:30pm return trip enabling greater flexibility for people to travel with transit, and the City of Dallas encourages Cherriots to
Comprehensive list of all public comments received during CARTS Redesign Outreach
Completed in September and October, 2016

further expand the span of service as resources become available, to better serve those with non-traditional work schedules. Departure Times

Conversely, for those with traditional 8:00am -5:00pm work schedules, the 5:00pm departure(s) from Salem may not be ideal, as it takes time to travel from worksites to the Downtown Transit Center. Since the next departure isn't until 7:30pm, this may make CARTS less attractive to traditional office workers. This is particularly concerning because of the overlapping 5:00pm departures (see below).

Overlapping Afternoon Departures

The proposed schedules have the afternoon CARTS 40-Polk and 50-Express departing at the same time. While it is understood that CARTS 50 has a faster end-to-end travel time, two buses that depart at the same time will be inherently less useful than buses that depart at different times. There is also the possibility that by departing at the same time, these two buses would end up cannibalizing each-other's ridership. The City of Dallas would strongly encourage revising the schedule for the afternoon CARTS 50 to run at a different time, perhaps departing Dallas at 5:15 and Salem at 6:00, thereby eliminating the overlap and maintaining a more even headway in the Dallas-Salem corridor.

Network Legibility

Both the current and proposed network have the 40 and 50 traveling different directions through Dallas, with Salem-bound CARTS 40 traveling south through Dallas, and CARTS 50 buses traveling north. Consequently, first-time or infrequent riders may find themselves waiting at the wrong bus stop. Consider realigning Route 50 so that it services the three Dallas stops in the same order as Route 40. While this might add slightly to travel times for CARTS 50, it would improve network legibility by ensuring that Salem-bound buses would always depart from the same side of the street.

On-Street Information

While not addressed in the CARTS Redesign Plan, many of the current CARTS stops are very basic, marked only by a tiny sign saying "Bus Stop" in tiny print. In light of the reduction in the number of stops, the City of Dallas encourages Cherriots to improve the information provided to users on the street, with larger signs offering more information. The City of Dallas is willing to coordinate with Cherriots on adding other amenities to bus stops as warranted, such as benches, trash cans, and shelters.

Stop Location

Currently, several CARTS bus stops are on out-of-the-way side streets, which adds delay as buses loop around, and reduces the visibility of the bus stop itself, which is a personal safety consideration for riders and an important marketing tool for non-riders. The City of Dallas would be willing to coordinate with ODOT and Cherriots to
Comprehensive list of all public comments received during CARTS Redesign Outreach
Completed in September and October, 2016

relocate the Oak and Main stop in Downtown Dallas onto Main Street, and would encourage Cherriots to pursue similar relocations elsewhere (e.g. Independence Roth’s) to streamline service. 2X Extension
As stated in the Regional Transit Plan, "the most useful transit route in Polk County is the 2X, which doesn’t go to Dallas." While the City appreciates the efforts Cherriots has put into improving transit service in Dallas through the CARTS Redesign Draft Plan, such efforts really only find efficiencies around the margins, such as going from 5.5 round trips to 6. In contrast, routing the 2X through Dallas would be transformative, effectively doubling the number of buses serving Dallas and improving both frequency and span of service. While overall the proposed redesign is a good interim measure, the ultimate goal should be to extend Route 2X into Dallas, and the City of Dallas encourages Cherriots to work diligently toward this outcome. Towards this end, we encourage Cherriots to clearly identify what minimum level of improvement is required to enable transit buses to safely make the left turn from onto Highway 22 from either Kings Valley or Perrydale Road. Recognizing that a full grade-separated interchange is an enormously expensive project that would take decades to realize, we encourage consideration of other worthwhile safety improvements, such as acceleration lanes, improved lighting, or sightline enhancements, which could enable this turning movement and could be implemented more quickly and at lower cost, and to work with ODOT Region 2, Polk County, The City of Dallas, and The Confederated Tribes of Grand Ronde to develop a consensus that such a project is a regional priority, and to seek out near-term funding to make those safety improvements needed to expand transit service. To conclude, the City of Dallas appreciates the hard work of Cherriots staff in developing this redesign plan, and looks forward to working with you to continue improving mobility for the citizens of Dallas.

Timestamp: 9/30/2016

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.:  As the mayor of the city of Gates, Oregon. I am very concerned about losing our regional transit routes operated by the Cherriots system.

They plan to delete the Canyon route, CARTS Route 35, because of low ridership. This CARTS system was intended to meet the needs of the elderly, disabled, and low income people of rural areas. The CARTS program is funded almost entirely by Federal and State grants solely intended for this purpose. It was never meant to be a for profit system.

They want to discontinue services to the upper Santiam Canyon. Above Stayton is Mehama, Lyons, Mill City, and Gates. In addition they want to discontinue service to the Adult and Family Services office in Sublimity.

For many of our citizens. This is their only lifeline to doctors’ appointments, pharmacies, and county and state services. They claim that by discontinuing the upper canyon route, they can do a better service for their other routes. I hope you feel as I do that our need up here is just as important and maybe even more so. I ask that you advocate on our behalf and look into this matter and be our negotiator.

The above correspondence was sent to Oregon Gov. Kate Brown and shared with the Statesman Journal

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: 1. Eliminating early afternoon trip. This happens to be the bus I have taken several times and plan to in the future, at Fir Villa and Rhododendron. Eliminating this trip means that the only daytime route to Salem, other than very early morning, (and proposed late afternoon) is Route 40. Route 50 takes 30 minutes; Route 40, 60 minutes. Not advantageous for Dallas riders.

2. Eliminating bus stops at La Creole/ Aquatic Center and Fir Villa/Rhododendron. These stops serve east Dallas riders. There is potential for more riders in the future. The Barberry development has begun construction on the Fir Villa side and will extend all the way to La Creole. The new part will include “affordable houses” and apartments at some point. An alternative might be to add stops at the intersections of La Creole & E. Ellendale, and Fir Villa & E. Ellendale, since the bus route travels along E. Ellendale.

3. Comment on early morning route. Route 45 does not operate at 6:00 am to connect riders to downtown Dallas stops.

4. Comment on proposed late afternoon trip to Salem and back to Dallas. The timing might be a little early for people leaving work?? 4:17 pm and 5:00 pm?

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: Mr. Stone Cliff.

In your letter to Melinda Flatman, you cited low ridership for your reason in abandoning the Upper Canyon from the Carts bus service. The carts System is funded by federal and state and local grants.

This project was intended to help low income, Disabled, and senior citizens. This was not intended as a for profit system. By denying the Upper Canyon this service, you are voiding the whole reason for the service itself.

Gates has a special ride in share place for the bus to pick up riders. We have a woman who is legally blind who was so happy to find a house for rent a crossed from the carts bus stop. You are doing the state and federal tax payers a disservice by neglecting the elderly, disabled, and low income citizens their right to the service that the government grants offer, because you want to make the service for profit and not for the humanitarian Values as was intended. Please respond.

What are your overall feelings about the proposed changes?:

What changes, if any, would you make to the proposed plan? This can include cities and towns served, bus stop locations, trip times, number of trips per day, etc.: 1. Need to retain Dallas Safeway stop. This stop serves many people: shoppers at Safeway and other stores, the new DHS building within one block; 40 new apartments open in November at Dallas Retirement Village, which are 1 ½ blocks away, plus other folks from DRV.

2. Reminder about Oak Street stops. This stop serves the heart of Dallas: employees; court and probation appointments; the Academy Building - Polk County Behavioral and Public Health services and community agencies, and employment agency and more community services across Main Street; and offices at the Polk County Courthouse.

3. Suggestion for new stop on SE Miller Ave. in Dallas: add a stop at Miller and SE Holman to accommodate Chemeketa College and Dallas High School students. (From an overheard conversation.)

4. Suggestion for new stop in Independence – perhaps. There is a new Wellness and Community Services Center at the corner of 16th and Monmouth Street in Independence, across the street from Central High School. Consider?

Suggestion. In speaking with staffers with Polk County public and behavioral health, community service organizations, and the general public over several years, I find that few people are aware of Flex Route 45 and understand CARTS service in general. Items/stories in the Polk County Itemizer-Observer weekly newspaper would help with that information gap.

MEMO TO: BOARD OF DIRECTORS

FROM: TED STONECLIFFE, LONG-RANGE PLANNING ANALYST
      STEVE DICKEY, DIRECTOR OF TRANSPORTATION DEVELOPMENT

THRU: ALLAN POLLOCK, GENERAL MANAGER

SUBJECT: SUPPLEMENTAL PACKET FOR CHERRIOTS REGIONAL COMMENTS RECEIVED AFTER RELEASE OF BOARD PACKET

Several comments were received from the public after the final draft Cherriots Regional schedules were released to the public on January 15, 2017. The emails received and the associated responses are provided in this supplementary packet for your information.
Hi Ted,

I wanted to share my concern over the afternoon return trips from Dallas. While I'm currently not commuting on the bus, the new schedules would preclude me from doing so in the future. Like many businesses, our offices close at 5, and if I were to attempt to commute home to Salem by transit, I would have to wait almost two and a half hours for the bus at 7:20, which wouldn't get to downtown Salem until 8:20. (and wouldn't get me home until 8:45 at best.) Needless to say, a nearly four-hour one-way trip that can be made in 30 minutes by car is not appealing.

Now, I understand that as a reverse-commuter with regular hours I'm not your typical rider, and that with limited resources trade-offs have to be made. Further, I expect many riders will appreciate the expanded span of service, however sacrificing frequency to do so will, in my case, have the effect of preventing me from using the service.

That said, I appreciate the hard work you've done on this project, and as a planning geek will look forward to seeing the effect on ridership.

-Chase
Thanks for the feedback Chase. Yes, we had to make some tough decisions with very limited resources we have for CARTS. We found out that with the exception of CARTS 45 riders, two-thirds of riders were traveling in to Salem/Keizer instead of the reverse. There will be some people who will stop riding because the new schedules don’t work for them. But we hope the new schedules will work well for most people. The biggest complaint that we’re hearing is from State workers who will not be able to work an 8 hour shift with a 0.5 hour lunch and get home right away. But that disadvantages the poor people who have to transfer to Cherriots to get to their jobs and then get back downtown before getting their CARTS bus home. With the new Cherriots Regional system, people might have to wait a little longer for the bus, but overall, this system is going to be more useful to seniors and people with disabilities and will still be possible for commuters, just not as convenient for some. Tradeoffs are what planning is all about, which you know very well.

-Ted

Hello Ted, I did not see the ending date for 35 and would like to know for planning purposes how long I will be able to use the service.

Thanks

Janine DeLaunay

Hi Janine,

Thanks for your question. Route 35 will run until Friday, May 5, 2017. The new service will begin on Monday, May 8. There will be four round trips per day on the new 30X service, but it will only serve designated stops in each city. Therefore, it will be necessary for you to have transportation between the new stops. In Stayton, the two existing CARTS stops will remain and one new stop at the park-and-ride lot at highway 22 will be established.

Best regards,
Ted

Dear Ted,
Thank you for thoughtfully working with our communities to develop a plan for continued service. As rural Oregon continues to be an area where many elderly and below poverty level individuals and families are living the transportation serves you provide are paramount.

I realize my comments will not matter at this point but a normal person who works an 8 hr day with a 1 hr lunch will not be able to ride the bus from Polk County. Smart scheduling. The only way it works is if I wait around 1.5 hrs for the bus.

Time to find another option.

Dear Mr. Freilinger,

Thank you for sharing your concerns regarding the proposal for the new Cherriots Regional service (formerly CARTS). The proposed schedules are a result of the collection of hundreds of comments and an effort to optimize the very limited funding we have for the system, while addressing those comments.

To address your comment directly about the timing for commuters, we have the 40X arriving in Salem in time for someone to transfer to a Cherriots bus and still make it to a 8:00 job. After getting off work, they could catch a Cherriots bus in time to make the 5:30 pm departure of the 40X to Independence, Monmouth, or Dallas. If you live in Dallas, the 50X could be a better option for you. You might also explore the option of parking at the Polk County fairgrounds and riding Cherriots Route 2X if you have a car available to you either as a driver or a passenger.

Best regards,
Ted

David LaDuca <laducas@yahoo.com>
Reply-To: David LaDuca <laducas@yahoo.com>
To: Ted Stonecliffe <ted.stonecliffe@cherriots.org>

Hi Ted,

Thank you for sharing this proposal. The concern that I shared originally has not been addressed. The first 10X from Woodburn arrives in Salem at 7:20 am. If I start work at 7:30 am, my 8 hour shift concludes at 4:00 pm (this includes a half hour for lunch). However, the buses back to Woodburn depart from Salem at 2:00 pm (too early) and 5:30 pm (too late). How is this schedule serving workers with an 8 hour schedule?

My next question in whether the Cherriots 10X route will now be covered under the bus pass given to state workers in the Capitol Mall area.

Thank you,
Beth LaDuca
