

### Section 5310 Program of Projects

Federal Transit Administration Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program Traditional and Expanded Programs

Fiscal Year: 2023

Total Funds Available: \$376,958

Number of Recipients: 1

Recipient: Salem Area Mass Transit District (SAMTD)

Recipient Location: 3140 Del Webb Ave, Salem, OR 97301

Location Description: The project coordinates services for seniors and individuals with disabilities in the urban and rural areas of Marion and Polk counties. Administrative staff managing the program are based at Del Webb Operations Headquarters building. Cherrriots Shop and Ride operates within the Salem-Keizer Urban Growth Boundary.

Congressional District: 6

List of Projects:

| Project                            | Category        | FTA 5310 Share   | Local Match     | Total Project    |
|------------------------------------|-----------------|------------------|-----------------|------------------|
| Mobility Management                | Traditional     | \$195,327        | \$48,832        | \$244,159        |
| Shop & Ride Preventive Maintenance | Traditional     | \$12,000         | \$3,000         | \$15,000         |
| Shop & Ride Purchase of Service    | Non-Traditional | \$169,631        | \$42,408        | \$212,039        |
| <b>Total:</b>                      |                 | <b>\$376,958</b> | <b>\$94,240</b> | <b>\$471,198</b> |

Salem Area Mass Transit District (SAMTD) serves as the designated recipient for the FTA Section 5310 funds for the Salem-Keizer urbanized area because the population is greater than 200,000, therefore classifying the urban area as a "large" urban area. As the designated recipient of these funds, the District conducts a selection process to determine the use of the funds, and to certify that projects were derived from the adopted Coordinated Public Transit – Human Services Transportation Plan (Coordinated Plan).

A public notice of fiscal year 2023 Section 5310 grant solicitation was published in the Statesman Journal newspaper March 14, 2023. The amount of the grant funds available is \$376,958. Both English and Spanish versions of the notice were posted on the District's website during the application period up to April 16, 2023. Announcements were sent out to current grantees of these funds to ensure they were aware of the solicitation of applications for funding.

In accordance with the District's Section 5310 Program Management Plan (PMP) dated May 11, 2015, a committee was formed to review and rank applications received by the April 16, 2023 deadline. The committee consisted of all STIFAC (STIF Advisory Committee) members, and one member of the Salem Keizer Area Transportation Study (SKATS). The committee met on April 25, 2023 to hear presentations from applicants, provide opportunity for public comment, discuss and rank the projects, and make a recommendation for funding.

A primary priority of the PMP related to project selection, is to ensure the project selection process was guided by the currently adopted Coordinated Plan. In order for a Section 5310 project to be funded, it must be listed in the Coordinated Plan. Secondly, there must be a coordination of projects to ensure at least 55 percent of the annual apportionment is used for "traditional" 5310 projects as defined in the FTA Circular (FTA C 9070.1G dated July 7, 2014 ("Circular")).

Applications were received from one applicant, Salem Area Mass Transit District (SAMTD), in response to the call for projects. The Applicant proposed three projects, which were recommended and approved to receive a total of \$376,958 in Federal Section 5310 FY2023. Of the three applications submitted for the Section 5310 FTA funds, Cherriots Mobility Management Call Center and SAMTD Cherriots Shop and Ride Preventive Maintenance applications qualify as traditional projects. The SAMTD Cherriots Shop and Ride purchased service application qualifies as an "other" project.
