## INTRロDUCTIロN

Salem Area Mass Transit District（Cherriots）commissioned Lockwood Research to conduct an attitude and opinion survey for the purpose of getting feedback from the population residing within the Urban Growth Boundary．Approximately three weeks before the survey was conducted，Cherriots service had been changed．The survey was a communication tool to gauge the perceived impact of the cuts，as well as other service－related issues．It was also a good opportunity to educate some residents within the Urban Growth Boundary about the services Cherriots provides．

## RESEARCH ロBJECTIVES

The objective of the research was to field a telephone survey with a stratified sample of 400 randomly－ selected residents that assessed their attitude and awareness of public transportation and related issues． Issues that were explored included：
－Awareness of Salem Area Mass Transit District and Cherriots services
－Methods of transportation used by the population
－Awareness of，and likelihood of using，the West Salem Connector
－Likelihood of using Cherriots if Saturday or Sunday service was available
－Perceived rating of Cherriots services and overall performance
－Where the population would turn to for information on transit－related issues

## METHロDロLロGY

The study was conducted using telephone interviews．The telephone sample was pulled from two lists：a list of Iandline phone numbers and a list of cellphone numbers for households within the Urban Growth Boundary．New technologies and societal characteristics often present significant challenges to telephone surveys．The prevalence of mobile phones，for example，and the ability of customers to move one phone number to a different geographical area，can present complications to the sampling plan．The decrease in traditional landlines，due to households choosing to use only cell phones，offers another challenge－there are simply fewer numbers to call in a random survey．

Societal changes，such as fewer individuals or families dining at home in the evening，further limit access to respondents．Finally，conveniences such as caller ID allow residents to avoid calls altogether．While telephone surveys remain a valuable tool，their administration requires more resources（numbers，surveyors， or time）than ever before．The incidence rate of reaching a person was four percent（4\％）．A total of 10，359 dials were made to reach 437 respondents willing to start the survey（ 229 cell phone and 208 landline），and 401 were completed between January 28 and February 12，2017；a 92\％completion rate．No telephone calls were made on Super Bowl Sunday．

## SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

Statement of Limitations: Any sampling of opinions or attitudes is subject to a margin of error, which represents the difference between a sample of a given population and the total population. For a sample size of 401 and a population of 133,536 males and females 18 years of age and older, if respondents answered a particular question in the proportion of $90 \%$ one way and $10 \%$ the other, the margin of error would be $\pm$ $2.92 \%$, at the $95 \%$ confidence level. If they answered $50 \%$ each way, the margin of error would be $\pm 4.87 \%$. $^{1}$

These plus-minus error margins represent differences between the sample and total population at a confidence interval, or probability, calculated to be $95 \%$. This means that there is a $95 \%$ probability that the sample taken for this study would fall within the stated margins of error if compared with the results achieved from surveying the entire population.

Also, the study was a snapshot of perceptions at a single point in time and, as such, responses may reflect external issues such as the timing of snow and ice storms and internal issues such as the change in service and routes that were implemented on January 3, 2017 (see Appendix).

## Weighting Cases:

It is important to keep survey non-response as low as possible in order to reduce the possibility that the survey estimates could be biased in some way by failing to include (or including a disproportionately small percentage of) a particular portion of the population. For this reason, up to five callbacks are made with each telephone number in the sample frame. Quotas were established for age and gender. However, the nonresponse rate was high among the young cohorts. Within statistics, weighting is used to correct disproportional sample sizes and adjust the collected data to represent the population from which the sample was drawn. For example, the proportion of 18-24 year old males in our sample amounted to $1 \%$, while the proportion of 18 - 24 year old males in the total population (using Census 2010 figures) amounted to $11 \%$. With it, our sample is not representative, i.e., the frequency distribution of our sample does not match that of the population, and estimates for that stratum may be biased. In this case, a weighted sample analysis is more accurate in representing the population.

## Calculating Weighting Factors:

To adjust such distortion within a sample, every case (every asked person) was assigned a weighting factor by which the corresponding data is multiplied. This factor was determined by the proportion of the respective stratum in the population divided by the proportion of that stratum in the sample (the inverse of the sample fraction in each group).

[^0]
## SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

## THE REPDRT

One statistic used in the analysis of the research data is the difference between proportions statistic. This statistic examines each demographic group in turn and compares the answers given by the people in that group to the answers given by everybody else. It indicates which of their answers (if any) are more different than everybody else's answers than could be expected, due to chance, given the sample sizes involved. If an answer is significantly different (at the $95 \%$ or $99 \%$ statistical level), that demographic group is mentioned in the report as being statistically more likely, or statistically less likely, to give that answer.

A second statistic used in the analysis is the chi-square value that shows how likely it is that the two questions in the cross-tabulation are related. It measures the difference between the actual frequency of response and the frequency expected under the assumption of statistical independence. If the variables are statistically independent, the chi-square value should be relatively small. If, however, the variables are not independent if they are associated or related - then the chi-square value should be relatively large.

## THE FIRM

Lockwood Research has been providing opinion research and consultation throughout the Pacific Northwest and other regions of the United States for over two decades. The firm is a non-partisan and independent WBEcertified company located in Eugene, Oregon. The firm specializes in innovative and creative approaches to the research process, which includes: study design, survey instrument design, data collection, analysis, and all facets of qualitative and quantitative research. Our goal is to partner with organizations, government agencies, and businesses that desire to make informed decisions based on accurate, relevant data.

As a full-service market research firm, our expertise is in finding the right mix of research methods to increase response rates and deliver actionable insights based on statistically valid data. We follow the Council of American Survey Research Organizations (CASRO) guidelines for ethical standards in survey research.

Lockwood Research partnered with RLS \& Associates, Inc., to provide both GIS mapping of respondents and Cherriots riders and a summary and conclusion of the analysis using their years of experience consulting with transit agencies.

## SUMMARY \＆ロBSERVATIロNS

## The 401 telephone interviews were completed with a stratified random sample of community households within the Urban Growth Boundary．The weighted sample represents 403 members of the population．

－Six out of ten（60\％）respondents were from the cellphone sample frame（ $n=241$ ），and $40 \%$ was from the landline sample frame（ $\mathrm{n}=162$ ）．
－Five percent（5\％）of the telephone surveys were completed in Spanish．For six percent（6\％）of the sample，Spanish was the primary language spoken in the respondent＇s household．
－Four out of ten（ $43 \%$ ）surveys were completed in the 97301 and 97302 zip code areas．
－Roughly one out of five respondents were between $25-34$ years old（19\％）or $35-44$ years old （18\％）．
－The sample was evenly balanced between males（48\％）and females（52\％）．
－One－half（51\％）of the sample were two－adult households（18 and older），19\％were single－adult households，and $28 \%$ of the households had three or more adults．
－Over one－half（ $58 \%$ ）of the sample had no children under the age of 18 in the household．One out of six（ $17 \%$ ）households had one child，and close to one－fourth（ $23 \%$ ）of the sample had two or more children in the household．
－The lower income Salem－Keizer households in the population were under－represented in the sample． Only $11 \%$ of the sample had total combined annual household income before taxes in 2016 below $\$ 25,000$ ，compared to U．S．Census 2010 data indicating $27 \%$ of the Salem population，and $20 \%$ of the Keizer population had combined annual household income before taxes in 2016 below \＄25，000．
－One－fifth $(21 \%)$ of the sample had no adults in the household that were employed outside the home． Over one－fourth（28\％）of the sample had one person employed outside the home，and $35 \%$ of the sample was two－income households．

## Very few in the sample were transit reliant．Only four percent indicated they had no vehicle in the household．The automobile was the transportation method used by nine out of ten residents．

－Nine out of ten（92\％）respondents used a personal vehicle for their transportation．One out of six（17\％） respondents indicated they walked，and $11 \%$ indicated they used public transit or Cherriots．
－Six respondents（1\％）used public transit，Cherriots，exclusively for their transportation．
－Cherriots users were statistically less likely to also use a personal vehicle（59\％），although five percent （5\％）did use both．
－Cherriots riders were statistically more likely to be a male 65 years or older（13\％），have either only one adult in the household（33\％）or three or more adults（46\％），have only one vehicle in the household （36\％），and also get transportation from family／friends（11\％），and／or a taxi（8\％）．
－The routes that most Cherriots users mentioned riding were：\＃8 $12^{\text {th }} /$ Liberty via Red Leaf（29\％），\＃21 South Commercial（26\％），\＃2 Market／Brown（23\％），\＃9 Cherry／River Rd（23\％），and／or \＃11 Lancaster／ Verda（21\％）．

## SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

- One out of five ( $21 \%$ ) households indicated they had more vehicles available than licensed drivers. This indicates they may have had a 'choice of ridership.'
- While four percent (4\%) of the sample indicated they had no vehicle in the household, making them possibly transit reliant, another 12\% indicated their household had more licensed drivers than vehicles available. This group may have also been transit reliant.
- At least three-fourths (77\%) of the sample considered public transportation options to be accessible to them at the time of the survey.
- At least seven out of ten (71\%) respondents indicated it was 'very important' to have public transportation service where they live, and an additional 14\% said it was 'somewhat important.' The mean importance placed on having public transportation service where they live was 4.44 (out of a possible 5.0, ‘very important').

Roughly one-half of the sample had some familiarity with Cherriots. Even those with low familiarity were able to share some information about Cherriots with someone new in their neighborhood if they were to ask. Cherriots was considered to be an important asset to the community.

- Roughly one-half of the sample (51\%) were familiar with Cherriots, either 'very familiar' (26\%) or ‘somewhat familiar' ( $25 \%$ ). The mean familiarity score was 3.31 (out of a possible 5.0 , 'very familiar').
- When asked to share what they know about Cherriots, only ten percent (10\%) had nothing to share because they 'did not know' or 'was not a rider and had no personal experience.' Most respondents knew they could find information about Cherriots, like schedules and routes, by doing a Google search or going online to Cherriots website (18\%).
- Twelve percent (12\%) of the sample would share that Cherriots does not have weekend service. Ten percent ( $10 \%$ ) of the sample knew where there was a Cherriots bus stop and that the main hub was downtown. Nine percent (9\%) felt it was a transit system that runs everywhere and could get you where you needed to go.
- If people wanted to learn more about Cherriots, $82 \%$ would turn to the Internet or Cherriots website. An additional one-fourth ( $24 \%$ ) would call or telephone for information. Nine percent (9\%) would travel to the Downtown Transit Center.
- Seven percent (7\%) of the sample considered Cherriots to be a great or good transit system and that they provided a much-needed community service.
- For one out of five (19\%) , Cherriots schedule fits their needs 'most of the time.' One-third (33\%) of the sample indicated Cherriots schedule fit their needs 'not at all,' and an additional 28\% were uncertain.
- If weekend and/or holiday service were available, over one-third (35\%) of the sample indicated they would be likely ( $12 \%$ 'somewhat likely,' and $23 \%$ 'very likely') to ride a Cherriots bus.

Familiarity with Cherriots services was low. Three services received familiarity scores below a 2.0 - 'vaguely familiar' - on a 5.0 scale. No service attribute received a familiarity score above 3.0 ('neither familiar nor unfamiliar').

- CherryLift was the service that received the highest familiarity rating, 2.75 (out of a possible 5.0, 'very familiar'). CARTS received the second highest mean rating score, 2.25, followed by Medical Transportation (2.18).
- Cherriots riders were more familiar with Cherriots services than non-riders; but, in some instances, the difference in mean familiarity scores was small.
- Roughly nine out of ten ( $86 \%$ ) respondents lacked familiarity with the West Salem Connector. After hearing a brief description of the West Salem Connector, $72 \%$ of the sample indicated they were 'unlikely' to use the West Salem Connector. However, 16\% of those who were 'not at all familiar' with the West Salem Connector prior to hearing the description indicated they were 'likely' to use the West Salem Connector (11\% ‘somewhat likely' and 5\% 'very likely') after hearing about it.
- When asked to identify any areas the respondent would like to get to by bus that were not adequately or presently served by Cherriots at the time of the survey, $68 \%$ were unable to offer a location. Among those who offered suggestions, Woodburn was most frequently mentioned, followed by service between Salem and Wilsonville. The high schools were also a popular location.

Opinions of Cherriots, based on the ratings of twelve areas of service, ranged from mediocre to high. Respondents' lowest level of agreement was with the statement, 'Cherriots meets the needs of rural residents' (3.06), and the highest agreement was with the statement, 'Cherriots is a valuable resource for Salem-Keizer' (4.49).

- In order to assess opinions of the Cherriots bus system services provided by Salem Area Mass Transit District, respondents were asked to rate how much they agree or disagree with a series of statements. The sample strongly agreed that 'Cherriots is a valuable resource for Salem-Keizer' (4.49), and that 'Saturday or Sunday service is important to the community' (4.45).
- Cherriots is perceived to be safe. The sample rated 'Drivers are safe on the road' a 4.33 mean score, and ‘Riding Cherriots is safe’ a 4.22 mean score.
- The sample agreed with the statement, 'Information about Cherriots is easy to find' (4.25). Those who were familiar with Cherriots were asked if they followed Cherriots on social media, $12 \%$ indicated they did.
- The sample's overall impression of Cherriots was 'good.' Using a scale of 1 ('poor') and 5 ('excellent'), the sample rated Cherriots present service, overall, a mean score of 3.71. One-third (34\%) of the sample gave a ‘good’ rating.
- When asked what Cherriots could do to improve their service, $23 \%$ of the sample mentioned 'weekend service.'
- When given the opportunity to add a comment at the conclusion of the survey, 'providing weekend service' was the most-frequently mentioned comment.

SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

## GEDGRAPHIC AREA

Only households within the Urban Growth Boundary were included in the sample. To ensure only respondents within the geographic scope of the study were included, a zip code question was added. In all, nineteen respondents (5\%) were screened out because their zip code was geographically outside of the target market. Figures 1 and 2 show the percentage of respondents who completed the survey in each of the zip code areas. Figure 3 on the following page shows the distribution of respondents and bus riders by Census Tract and Block.

The Urban Growth Boundary is

Figure 2: Total Sample Distribution by Zip Code
 comprised of various components:

- Salem Incorporated (Marion County portion)
- Salem Incorporated (Polk County portion)
- Keizer Incorporated, Unincorporated area in UGB and outside city (Marion County portion)
- Unincorporated area in UGB and outside city (Polk County portion)

The Urban Growth Boundary is represented by a white overlay in Figure 2.

SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

## SAMPLE DEMGGRAPHICS

U.S. Census Bureau, 2010 Census data was used to establish age and gender quotas. Seven percent (7\%) of the sample did not answer the age question. Figure 4 below shows the sample had a bell shape distribution. The younger cohort was difficult to reach by telephone. Because of the high non-response rate, the sample was weighted to match the population demographics, see Figure 5. According to 2010 Census data, 50\% of the 18 years and over population was male and $50 \%$ was female. Among those who answered the question, $48 \%$ were male, $52 \%$ were female, and one person self-identified as transgender.

Figure 4: Sample Age Distribution (using Pew Research Generational Cohorts)

Figure 5: Sample Age Distribution

One-half (51\%) sample households had two adults, and $28 \%$ had three or more adults (18 and older). Roughly one out of five ( $19 \%$ ) households had one adult. Over one-half ( $58 \%$ ) of the sample had no children in the household, one out of six (17\%) had one child, and close to one-fourth ( $23 \%$ ) of the sample had two or more children in the household. Figure 6 shows the number of children in households headed by one adult, two adults, and three adults, or more.

According to U.S. Census Bureau, 2010 data, $96 \%$ of Salem and Keizer's population was one race. In the sample, $94 \%$ of the respondents self-identified being one race. When taking race alone or in combination with one or more other races, $82 \%$ of the sample self-identified being White/ Caucasian.

According to Census 2010 data, 20\% of the Salem population was Hispanic or Latino (of any race), as was $18 \%$ of Keizer's population. One out of nine ( $11 \%$ ) respondents self-identified being Hispanic or Latino; of which $17 \%$ also selfidentified being White/Caucasian.

Figure 6: \# of Adults and \# of Children in the Household

Figure 7: Sample Race-Ethnicity

The majority of the sample ( $94 \%$ ) indicated English was the primary language spoken in their home. According to Census 2010 data, $89 \%$ of the Salem population 18 years and over spoke only English, and 11\% spoke a language other than English. Spanish was the predominant 'other' language, spoken by 8\%. Similarly, 88\% of the Keizer population 18 years and over spoke only English, and $12 \%$ spoke a language other than English. Spanish was the predominant 'other' language, spoken by $9 \%$ of those in Keizer.

Six percent (6\%) of the sample indicated Spanish was the primary language spoken in the home. Five percent (5\%) of the telephone surveys were completed in Spanish. One percent (1\%) indicated the primary language was something 'other' than English or Spanish.

SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

Figure 8 shows the distribution of the sample's total annual household income, before taxes, in 2016. The lower-income population was under-represented in the sample when compared to U.S. Census 2010 data. Those who used Cherriots buses at the time of the survey were statistically more likely to have incomes under $\$ 15,000$ ( $11 \%$ ), or in the $\$ 15,000-\$ 24,999$ category ( $14 \%$ ). Those in the sample who typically used a personal auto for transportation at the time of the survey were statistically less likely to have incomes under \$15,000 (3\%), or in the \$15,000 \$24,999 category (6\%).

Figure 9: Sample Employed Outside the Home

Among those who were not employed outside the home at the time of the survey, roughly three-fourths (74\%) were retired. Seven percent (7\%) were employed and working from home, three percent (3\%) were students, and two percent (2\%) were homemakers. Three percent (3\%) indicated they were unemployed, of which two percent (2\%) were looking for work.

Figure 9 shows that one out of five respondents (21\%) had no household members employed outside of the home. Slightly more than one-fourth ( $28 \%$ ) of the sample had one person employed outside the home, and slightly more than one-third (35\%) of the sample were two-income households. Three percent (3\%) of the sample did not answer the question.

## TRANSPGRTATIロN HABITS AND ロPINIDNS

Only three percent（3\％）of the sample indicated they had no licensed driver in the household，and four percent （4\％）had no car，truck，or motor vehicle（including motorcycles）in the household．One out of five（20\％） households had one licensed driver， $54 \%$ had two licensed drivers，and $20 \%$ had three or more licensed drivers． At least one out of five（21\％）households had at least one vehicle in the household， $34 \%$ had two vehicles，and $38 \%$ had three or more vehicles．

Figure 10 shows the percentage of survey respondents with the number of licensed drivers greater than the number of vehicles （implying more transit reliance）is $12 \%$ of the sample．Choice ridership is implied when households have more vehicles than licensed drivers． This was the case for $21 \%$ of the sample．Over one－half（52\％）of the sample had parity，the number of licensed drivers was equal to the number of vehicles available in the

Figure 10：Driver to Vehicle Ratios per Household
 household．

Nine out of ten respondents（ $92 \%$ ）indicated they used a personal vehicle for their transportation．One out of six respondents（17\％）indicated that walking was one way they got around．Eleven percent（11\％）indicated they used public transit，Cherriots，for their transportation．Six respondents（1\％）relied exclusively on Cherriots and no other transportation option．Two respondents mentioned CherryLift，one respondent mentioned CARTS，one mentioned RED Line，and one mentioned TripLink．

Figure 11：Sample Transportation Used

Cherriots users were statistically less likely to also use a personal auto (59\%). Five percent (5\%) of the total sample used both Cherriots and a personal auto for their typical transportation. Four respondents (1\%) used both Cherriots and a family member or friend for their typical transportation. Two respondents used both Cherriots and a taxi for their typical transportation.

Respondents who mentioned using public transportation, or riding a Cherriots bus, were statistically more likely to:

- be a male 65 years of age or older (13\%)
- have one adult in the household (33\%), or three or more adults (46\%)
- have one vehicle in the household (36\%)
- get transportation from family/friends (11\%), and/or a taxi (8\%)
- indicate public transportation options were accessible to them (89\%)

Respondents who rode Cherriots were asked to indicate the routes they typically rode. Table 1 below shows all of the routes mentioned and distribution of use among sample bus riders. No one mentioned \#23 Lansing/Hawthorne, \#24 State/Lancaster or other CARTS routes.

Table 1

| Routes Typically Ride: | \% of Riders |
| :--- | :---: |
| \#2 Market/Brown | $23 \%(\mathrm{n}=10)$ |
| \#3 Portland Road | $15 \%(\mathrm{n}=7)$ |
| \#4 State Street | $8 \%(\mathrm{n}=3)$ |

| CARTS 40 Carts Polk County/Salem | $9 \%(\mathrm{n}=4)$ |

SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

At least three-fourths of the sample (77\%) considered public transportation options to be accessible to them at the time of the survey, $17 \%$ said 'no,' public transportation options were not accessible, and six percent (6\%) were 'not sure.' Those in the sample who indicated they ride Cherriots buses were statistically more likely to indicate public transportation options were accessible to them (89\%).

In order to assess the importance the public places on Salem Area Mass Transit District services (including Cherriots, CARTS, and CherryLift buses), respondents were asked to rate the importance of having public transportation service where they live on a scale from 1 ('Not at all important') to 5 ('Very important'). At least seven out of ten (71\%) respondents indicated it was 'very important' to have public transportation service where they live, and an additional 14\% said it was 'somewhat important.' The mean importance rating placed on having public transportation service where they live was 4.44, out of a

Figure 12: Are Public Transportation Options Accessible?

$n=403$ possible 5.0 ('Very important').

Those who use public transit gave a mean score of 4.71, slightly lower than those who rely on family/friends for transportation (4.88), and those who use carpool/vanpool (4.77). Those who use a personal automobile for transportation gave a mean score of 4.41.

Respondents were asked to rate their level of familiarity with Cherriots on a scale from 1 ('Not at all familiar') to 5 ('Very familiar'). While 71\% of the public considered having public transportation service where they live to be 'very important'; only $26 \%$ of the sample considered themselves 'very familiar' with Cherriots, and 25\% considered themselves 'somewhat familiar.' Those who were 'not at all familiar' were more likely to give 'not at all important' ratings, while those who were 'very familiar' gave higher importance ratings.

Figure 13: Sample Importance vs. Familiarity

| - | Total |
| :---: | :--- |
| 0 | Not at all familiar |
| - | Vaguely familiar |
| $\square$ | Somenal |
| $\mathbf{n}$ | Very familiar familiar |

The mean familiarity score was 3.31, out of a possible 5.0 ('Very familiar’). Those who use public transit were statistically more likely to indicate they were 'very familiar' (52\%, mean score of 4.11). Those who use a personal automobile for transportation gave a mean familiarity score of 3.25 . Those who live in the 97301 zip code area were statistically more likely to be 'very familiar' (26\%), and those living in 97302 were statistically more likely to be 'vaguely familiar' (19\%).

Respondents were asked to share what they know about Cherriots using a hypothetical question, "If someone new moved into your neighborhood and asked you about Cherriots, what would you tell them?" The verbatim responses are illustrated in Figure 14. Most of the sample could offer at least one opinion or piece of knowledge about Cherriots. Only 10\% responded, 'don't know/could share nothing' or 'I'm not a rider/don't use the service/no personal experience.' The most frequent responses are listed below:

- Find information/get schedules online/ Google it/go to their website (18\%)
- Not available on weekends (12\%)
- The main hub/depot/station is downtown (10\%)
- Where to catch the bus/where the nearest bus stop is located (10\%)
- There's a transit system that pretty much runs everywhere/goes all around the city/a lot of stops (9\%)
- It's a great transit system/good system/good service/like their services/provide a great community service (7\%)
- Easily accessible/easy to get (6\%)

Figure 14: If someone new moved into your neighborhood and asked you about Cherriots, what would you tell them?

In order to assess where people would look for transit-related information, respondents were asked to list all the places they would typically look to obtain information regarding Cherriots. If respondents wanted to learn more about Cherriots and the services they provide, eight out of ten (82\%) would turn to the internet or Cherriots website. An additional one-fourth (24\%) would call or telephone for information. Nine percent (9\%) would travel to the Downtown Transit Center to learn more.

Figure 15: Where would you go for information? "Other" responses

The word cloud in Figure 15 illustrates the importance of maintaining a customer information center at the Downtown Transit Center.

In a typical month, two out of ten respondents (20\%) ride a Cherriots bus and $80 \%$ of the sample indicated they 'never' ride a Cherriots bus in a typical month. Those in the sample who use a personal auto were statistically more likely to say they 'never' ride a Cherriots bus in a typical month (83\%).

Figure 16: In an average month, how often do you ride a Cherriots bus?

Never

Males in the sample were statistically more likely to ride 6 - 10 times in a typical month ( $5 \%$ ); while female respondents were statistically more likely to ride a Cherriots bus 11 or more rides in a typical month (9\%).

Among those who indicated they use public transit, or Cherriots:

- one percent (1\%) were infrequent riders and indicated they 'never' ride in an average month
- $38 \%$ rode a Cherriots bus one to five rides
- $10 \%$ rode a Cherriots bus $6-10$ rides
- $45 \%$ rode a Cherriots bus 11 or more rides

When asked how often the current Cherriots schedule fits their needs, $28 \%$ of the total sample indicated they 'don't know,' and/or were 'not familiar with the current Cherriots schedule.' Among those who use a personal auto for their transportation, one-third (34\%) indicated the current schedule did 'not at all' fit their needs.
The response percentages by category are presented in Figure 17.

Figure 17: How often does the current Cherriots schedule fit your needs?

Respondents were asked to rate their likelihood of riding a Cherriots bus if the buses ran on weekends and/or holidays on a scale from 1 ('Not at all likely') to 5 ('Very likely'). At least one-third (35\%) of the total sample indicated they were likely ( $23 \%$ 'very' and $12 \%$ 'somewhat') to ride a Cherriots bus if the buses ran on weekends and/or holidays. Those who indicated they use public transit, or Cherriots, were statistically more likely to indicate they were 'very likely' to ride a Cherriots bus on the weekends and/or holidays (59\%). The mean likelihood score given by those who use public transit, or Cherriots, was 3.95, compared to a total sample average likelihood score of 2.53 .

Those in the sample who indicated they use a personal auto for their transportation needs were statistically more likely to indicate they were 'not at all likely' to ride a Cherriots bus on the weekends and/or holidays (55\%, mean likelihood score of 2.41).

Those in the sample with average annual household incomes of $\$ 100,000$ or more, before taxes, in 2016 were statistically more likely to indicate they were 'not at all likely' to ride a Cherriots bus on the weekends and/or holidays (65\%, mean likelihood score of 1.74).
IIkelihood score of 1. /4).

Respondents in the sample with average annual household incomes under \$15,000, before taxes, in 2016 gave a higher than average mean likelihood score of 3.91 , compared to the sample average of 2.53 . Over one-half (58\%) indicated they were 'very likely' to ride a Cherriots bus on the weekends and/or holidays.

Male respondents aged 65 years or older were statistically more likely to indicate they were 'not at all likely' to ride a Cherriots bus on the weekends and/or holidays (65\%, mean likelihood score of 2.14). Meanwhile, female respondents between 45 - 54 years of age were statistically more likely to indicate they were 'very likely' to ride a Cherriots bus on the weekends and/ or holidays (35\%, mean likelihood score of 3.08 ).

## FAMILIARITY WITH SERVICES PRQVIDED

In order to assess familiarity with the services provided by Salem Area Mass Transit District, respondents were asked to rate their familiarity with eight services on a scale from 1 ('Not at all familiar') to 5 ('Very familiar'). The list of services was rotated in the order they were presented to each respondent. The distribution of responses and mean scores are presented in Figure 19 on the following page.

One-third (34\%) of the sample had familiarity with CherryLift ( $13 \%$ 'somewhat familiar', $21 \%$ 'very familiar'), and one-fourth ( $25 \%$ ) of the sample had familiarity with the Medical Transportation service (11\% 'somewhat familiar', $14 \%$ 'very familiar'). There were three services where public education is needed: the Travel Training service, the Ride Sharing program, and the West Salem Connector.

Figure 19 below shows the response percentages by category. Nine out of ten (90\%) respondents lacked familiarity with the Travel Training service ( $84 \%$ 'not at all familiar', 6\% 'vaguely familiar'), 86\% lacked familiarity with the West Salem Connector (79\% 'not at all familiar', 7\% 'vaguely familiar'), and 83\% of the sample lacked familiarity with the Ride Sharing program (73\% 'not at all familiar', 10\% 'vaguely familiar'). Figure 20 illustrates those in the sample who used public transit, or Cherriots, had higher familiarity mean scores across all eight services when compared to the total sample's mean familiarity scores.

Figure 20: How familiar are you with...?

Roughly nine out of ten ( $86 \%$ ) respondents lacked familiarity with the West Salem Connector. Each respondent was given the following brief description of the West Salem Connector:

The West Salem Connector is a flexible transit service that only comes when you request it. You can book trips online or by phone. The bus takes you between Connector points within the service zone. You can also connect to a Cherriots bus route going downtown.

Hearing about The Connector, respondents were then asked how likely they were to use this service on a scale from 1 ('Not at all likely') to 5 ('Very likely'). At least seven out of ten (72\%) respondents indicated they were 'unlikely' to use the West Salem Connector (63\% 'not at all likely' and 9\% 'somewhat unlikely'). However, sixteen percent (16\%) of those who were 'not at all familiar' with the West Salem Connector prior to hearing the description indicated they were 'likely' to use the West Salem Connector (11\% 'somewhat likely' and 5\% 'very likely') when asked.

Respondents using a personal auto for their transportation needs were statistically more likely to indicate they were 'not at all likely' to use the West Salem Connector (66\%). Walkers in the sample were statistically more likely to indicate they were 'somewhat unlikely' to use the West Salem Connector (18\%). Respondents from the 97302 and 97303 zip code areas were also statistically more likely to indicate they were 'not at all likely' to use the West Salem Connector (73\% and 76\%, respectively).

Eight percent ( $8 \%$ ) of the total sample were 'very likely' to use the West Salem Connector. Respondents who used public transit, or Cherriots, for their transportation needs were statistically more likely to indicate they were 'very likely' to use the West Salem Connector (16\%). The mean likelihood score given by respondents who use public transit, or Cherriots, for their transportation needs was 2.42, compared to a total sample average of 1.88. Respondents with total annual household incomes of $\$ 50,000$ to $\$ 74,999$, before taxes in 2016, were statistically more likely to indicate they were 'very likely' to use the West Salem Connector (16\%).

When asked to identify any areas the respondent would like to get to by bus that were not adequately or presently served by Cherriots at the time of the survey, at least two-thirds (68\%) of the sample were unable to offer a location and replied, 'none/don't know' or 'don't use Cherriots/won't ride the bus'.

Among the $32 \%$ of the sample who offered one or more location, Woodburn was most frequently mentioned ( 10 responses, $2 \%$ of the sample), followed by 'service between Salem and Wilsonville' ( 8 mentions, $2 \%$ of the sample), 'River Road South' (8 mentions, 2\% of the sample). High schools were a popular location: Sprague High School ( 7 mentions), West Salem High School (3 mentions), McNary High School ( 2 mentions), and Straub Middle School (1 mention).

SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY－ $2 \square 17$

## ロPINIロNS ロF CHERRIロTS BபS SYGTEM

In order to assess opinions of the Cherriots bus system services provided by Salem Area Mass Transit District，respondents were asked to rate how much they agree or disagree with a series of statements using a scale ranging from 1 （＇Strongly Disagree’）to 5 （＇Strongly Agree’）．The 12 statements were rotated in the order they were presented to respondents．To stay within the ten－minute survey length，the list of 12 statements was broken down into two blocks，with roughly one－half（ $\mathrm{n}=194$ ）of the sample receiving Block A，and the remaining one－half $(\mathrm{n}=209)$ receiving Block B（see Table 2 ）．The bottom two statements in Table 2 were rated by the total sample（ $n=403$ ）．

Table 2

| Block A（ $\mathrm{n}=194$ ） | Block B（ $\mathrm{n}=209$ ） |
| :--- | :--- |
| Hours of service are convenient | Days of service are convenient |
| Cherriots bus stops are close to my home | Riding a Cherriots bus is safe |
| Cherriots drivers are safe on the road | Cherriots is a well－managed organization |
| Cherriots buses are clean and well－maintained | Saturday or Sunday bus service is important to the community |
| Cherriots meets the needs of rural residents | Cherriots meets the needs of people with disabilities |
| Information about Cherriots is easy to find <br> Follow－up with those who were familiar：Do you ever follow Cherriots on social media？Yes／No <br> Cherriots is a valuable resource for Salem－Keizer |  |

Response percentages for the 194 respondents who rated each statement in Block A are presented in Figure 21 on the following page．Response percentages for the 209 respondents who rated each statement in Block $B$ are presented in Figure 22 on the following page．The last two statements are shown in both Figure 21 and Figure 22 and were rated by the total sample of 403 respondents．

The two statements which received the highest level of agreement among the sample were：＇Saturday or Sunday service is important to the community，＇and＇Cherriots is a valuable resource for Salem－Keizer．＇ Three－fourths（75\％）of the sample＇strongly agreed＇that＇Cherriots is a valuable resource for Salem－Keizer，＇ mean score of 4．49．Seven out of ten（70\％）respondents＇strongly agreed＇that＇Saturday or Sunday service is important to the community，＇mean score of 4.45 ．

The statement receiving the lowest level of agreement was，＇Cherriots meets the needs of rural residents，＇ mean score of 3.06 ．

Figure 22: What is your level of agreement with...?

## SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY-2ロ17

Response mean scores for each statement in Block A and Block B are presented in Figure 23 below with the total sample average represented by the column and the mean score given by public transit users represented by a red dot. With the exception of two statements, public transit users in the sample gave higher mean scores than the total sample average for each of the statements about Cherriots bus system service.

The total sample had a high level of agreement with the statement, 'Information about Cherriots is easy to find,' mean score of 4.25 . Those in the sample who indicated they were familiar with Cherriots were asked a follow-up question, "Do you ever follow Cherriots on social media, such as Twitter or Facebook?" Only twelve percent (12\%) indicated they have followed Cherriots on social media. Eighteen percent (18\%) of those who indicated they use public transit, or Cherriots, have followed Cherriots on social media.

Figure 24: Do you ever follow Cherriots on social media?

In order to assess the community's overall impression of Salem Area Mass Transit District, and Cherriots, respondents were asked to rate Cherriots overall present service on a scale from 1 ('Poor') to 5 ('Excellent'). As seen in Figure 25, a large percentage of respondents rated Cherriots overall present service as ' 4 ' ( $34 \%$ ) or a ' 3 ' (25\%), meaning that a majority of respondents felt, overall, that Cherriots overall present service at the time of the survey was 'good' (mean score 3.71). Those in the sample who indicated they used public transit, or Cherriots, gave a higher than average mean score, 3.85, compared to the sample average of 3.71.

Figure 25: Overall, how would you rate Cherriots present service?

Respondents were asked to share suggestions they felt could help Cherriots improve their current level of service. One-third ( $32 \%$ ) did not offer any suggestion. Four percent (4\%) of the sample said 'they seem to be doing a good job now.' The suggestions which were most frequently mentioned are ranked below:

- $23 \%$ of the sample mentioned 'weekend service' (which was mentioned four times more often than of any other suggestion)
- 5\% - 'longer hours of service’
- $4 \%$ - 'more frequent service’
- 3\% - 'late night service’
- 3\% - ‘more routes’

Upon concluding the survey, respondents were given the opportunity to share any additional comments with Cherriots. As the word cloud in Figure 26 illustrates, weekend service was a very important service issue to the sample. All verbatim open-end responses are appended to the report.

Figure 26：Do you have any additional comments you would like to share with Cherriots？

## SUMMARY AND CONCLUSIロNS

## Transit Dependent

A very high percentage of survey respondents used a personal vehicle for their transportation needs（92\％）， while only four percent（ $4 \%$ ）of respondents had no vehicles available．Eighty percent（ $80 \%$ ）of the sample indicated they＇never＇ride public transportation，eleven percent（ $11 \%$ ）of the sample used public transportation，and one percent（ $1 \%$ ）used public transportation exclusively．Of the eleven percent（11\％）who used public transportation，one percent（ $1 \%$ ）were infrequent riders， $38 \%$ rode 1 to 5 times per month， $10 \%$ rode 6 to 10 times a month，and $45 \%$ rode 11 or more times per month．The survey confirmed that public transportation users were less likely to use a personal vehicle．

By taking the number of licensed drivers in the household and comparing it to the number of vehicles available，it was determined that twelve percent（ $12 \%$ ）of respondents were transit reliant．These figures， along with demographics，can be used to determine the estimated transit demand in the Salem－Keizer Urban Growth Boundary．

## Public Transportation Perception

Based on the information collected from the telephone household survey，over seven out of ten（71\％） respondents indicated that public transportation was＇very important＇to have where they live．Seventy－seven percent（ $77 \%$ ）of respondents considered public transportation options to be accessible to them at the time of the survey．This lead to a mean importance of having public transportation service where they live at 4.44 on a scale from one to five，while Cherriots value to the survey respondents had a mean value of 4．49．

## SALEM AREA MASS TRANSIT DISTRICT CロMMUNITY SURVEY - $2 \square 17$

While the sample highly valued the importance of public transportation, they were not satisfied with the service being provided. Weekend (23\%) and late night service ( $11 \%$ ) were frequently mentioned as services they would like to see provided in the future. The lack of satisfaction with Cherriots could also be caused by the lack of familiarity with the services being provided. Roughly one-half (49\%) of the sample had neutral, vague, or no familiarity with services provided by Cherriots. No service attribute received a familiarity mean score above 3.0 ('neither familiar nor unfamiliar'). When asked what areas respondents would like to see served, $68 \%$ percent were unable to offer a location. The lack of satisfaction also could be attributed to $33 \%$ of the sample, indicating Cherriots schedules did not fit their schedule at all, and $28 \%$ of the sample indicating they 'don't know,' and/or were 'not familiar' with the current Cherriots schedule.

On page 14 of the report, it describes those who live in zip code 97301 were more likely to be familiar with public transportation, while those in zip code 97302 were less familiar with public transportation options. Being able to visualize areas that are more or less familiar with Cherriots services will help to focus limited resources on the areas that need to be targeted with marketing campaigns.

## Income Levels

Low-income families (under $\$ 35,000$ ) were less likely to take the phone survey as compared to the overall populations of Salem and Keizer and public transit riders ( $20 \%$ phone survey respondents, Salem population $41 \%$, Keizer population $32 \%$, ridership $78.2 \%^{2}$ ). This could be attributed to the number of respondents who answered 'not sure/don't know' and no answer. The lack of low-income family data can be perceived as good and bad. Being that low-income families are usually transit dependent, they would be able to provide better insight on services already being provided by Cherriots. But with the lack of low-income families in the response, Cherriots is able to receive more feedback on their services from non-riders (perception and familiarity).

## Online Presence/ Social Media

In the increasing digital world, more people are turning to the internet to get information about products and services. This was confirmed by the phone survey. Eighty-two percent ( $82 \%$ ) of respondents said they would turn to the internet or Cherriots website to get more information about Cherriots services.

Of those familiar with Cherriots, only twelve percent (12\%) followed Cherriots on social media. In an increasing digital world, and Cherriots utilizing the Transit App, increased exposure on social media should be a focus going forward.

## Weekend Service

Weekend service was the most sought after service that is currently not provided ( $23 \%$ mentioned it as a service improvement needed). Thirty-five percent (35\%) indicated they would be likely to ride Cherriots if it were operated on weekend and/or holidays. Households with income below $\$ 15,000$ scored the likelihood of using weekend service at 3.91 , which was the highest among income levels.

An overall score of 2.53 out of 5 for likelihood to ride on weekends and/or holidays shows people who are not transit dependent would not use the service. The score was even lower (2.41) for respondents who used

[^1]
## lockwood

RESEARCH
personal vehicles for their transportation needs and lower still (1.74) for households whose income was $\$ 100,000$ or more.

West Salem Connector
The familiarity of the West Salem Connector was low from survey respondents. Eighty-six (86\%) of respondents lacked familiarity. After receiving a brief description of the service, $72 \%$ of respondents were 'unlikely' to use the West Salem Connector. The total sample average score, when asked about using the West Salem Connector, was 1.88.

According to the Connector One Year Report prepared by Cherriots staff, renaming the West Salem Connector to Cherriots Connector was under consideration. Because awareness for the service was low among the sample, it suggests renaming the service would not create much confusion and may, instead, reinforce the link between the Connector and the greater Cherriots system.

## lockwood <br> RESEARCH <br> APPENDIX

## APPENDIX

## Changes by Route:

## Route 1

- This route is being split into Route 19 and Route 21.
- Route 19 travels between the Keizer Transit Center and the Downtown Transit Center via River Rd. and Broadway St.
- Route 21 travels from the Downtown Transit Center to South Salem via South Commercial St.

Route 2 There are no changes to Route 2.
Route 3 There are no changes to Route 3.
Route 4/4A Route 4A will now be named Route 24 to avoid confusion. Route 4 will remain the same as it is today. The schedule times are not changing.

## Route 5/5A

- This route is being split into Route 5 and Route 17. The "A" branch is being eliminated.
- Route 5 will travel between the Downtown Transit Center and East Salem via Lancaster Dr.

The stops on $45^{\text {th }}$ Ave., Greentree Dr., and Serra Ct. will be removed. The stop at Walker @ Sunnyview will be moved so it can still be served.

- Route 17 will travel from the Downtown Transit Center to West Salem via Edgewater Dr. The bus will no longer travel on Patterson St.
Route 6
- This route is being split into Route 6 and Route 16.
- Route 6 will travel from the Downtown Transit Center to South Salem via Mission St., Fairview Industrial Dr. and Rees Hill Rd.
- Route 16 will travel from the Wallace Rd Park \& Ride in West Salem to the Downtown Transit Center.

Route 7 There are no changes to Route 7.

## Route 8/8A

Route 8 A is being renamed Route 18 to avoid confusion. Route 8 will remain the same as it is today.

## Route 9/9A

The new Route 9 will follow the same path as Route 9A. Riders who used to catch the Route 9 may need to cross the street to catch the bus.

## Route 10

This route will be renamed Route 23 to avoid confusion with CARTS 10. In all other ways the route is staying the same.

Route 11 There are no changes to Route 11.
Route 12 There are no changes to Route 12.
Route 13

- This route will be split into Route 13 and Route 22.
- Route 13 will travel between Chemeketa Community College and the Downtown Transit Center via Silverton Rd.
- Route 22 will travel between the Downtown Transit Center and Salem Central Library.

Route 14 There are no changes to Route 14.
Route 15X There are no changes to Route 15X.

RESEARCH

## lockwood <br> RESEARRH <br> SURVEY INSTRUMENT

## Salem Area Mass Transit District, also known as Cherriots, is conducting a survey with households in the Salem-Keizer urban area to gather opinions about their services. Whether you use Cherriots or not, your opinions and feedback are very important. The survey should take about 10 minutes of your time to complete.

1. Did I reach you on a cell phone? If yes, is it safe for you talk now? If yes, continue. If no, schedule a time to callback.
2. Can I confirm the zip code where you live?
3. What types of transportation do you currently use? Or, how do you currently get around? (Choose all that apply)
${ }_{1}$ ( ) Personal auto
2( ) Motorcycle/Moped
${ }_{3}$ ( ) CherryLift bus
${ }_{4}$ ( ) Walk ${ }_{5}$ ( ) Bike/Cycle
${ }_{6}$ ( ) Public transit/Bus - Cherriots
${ }_{7}$ ( ) Volunteer driver
8 ( ) Family/Friend
If rider, ask: Which routes do you typically ride? $\qquad$
${ }_{9}\left(\right.$ ) Carpool/Vanpool ${ }_{10}\left({ }_{11}\left({ }^{(12}\right.\right.$ ) Greyhound ) Other (please specify)
4. Are public transportation options easily accessible to you? 1 ( ) Yes $2($ ) No $3($ ) Not sure
5. How important do you think it is to have public transportation service where you live? Please use a scale where $1=$ not at all important and 5 = very important.
Not at all Important 1
2
3
4
5 Very Important
6. How familiar are you with Cherriots, the buses that operate Monday thru Friday in the Salem-Keizer area? Please use a scale where $1=$ not at all familiar and $5=$ very familiar.
Not at all Familiar 1
2
3
4
5 Very Familiar
7. Please share with me what you know about Cherriots. For example, if someone new moved into your neighborhood and asked you about Cherriots, what would you tell them?
8. If you wanted to learn more about Cherriots and the services they provide, where would you go for information? (choose all mentioned)
${ }_{1}($ ) Website/Internet $2($ ) Call/Phone
${ }_{3}$ ( ) Newspaper
${ }_{4}$ ( ) Facebook
5( ) Twitter
${ }_{6}$ ( ) Would not look 7( ) Don't know

17. What suggestions would you like to share with Cherriots that you feel could help improve their current level of service?

## The following questions are for demographic purposes only and are optional.

18. How many adults (18 and older) live in your household, including yourself?
19. How many children under the age of 18 live in your household? $\qquad$
20. How many licensed drivers are in your household?
21. How many cars/trucks/motor vehicles (including motorcycles) are in your household?
22. How many household members are currently employed outside the home?
( ) None
\#
23. For those not employed outside the household: What best describes you (read list):
1( ) Homemaker
2 ( ) Retired
${ }_{3}($ ) Student
${ }^{4}$ ( ) Work from home
${ }_{5}\left(\right.$ ) Unemployed and looking for work ${ }_{6}$ ( ) Unemployed and not looking for work
${ }_{7}$ ( ) Other (please specify)
24. What year were you born? $\qquad$

25. What was your average annual household income, before taxes, in 2016?

That concludes our survey. If there are any additional comments you would like to share with Cherriots, I can record those now.

## APPENDIX - VERBATIM ロPEN-END RESPロNGES: Notes

| 2026 | access | (note) Not as much as I would like |
| :---: | :---: | :---: |
| 6141 | access | (note) No weekends. Makes it hard to look for jobs. Cant get anywhere on weekends |
| 8274 | access | (note) only probably comes by here not that that often or anytime I can use it. (note) Used to be closer, now I have to walk about a half mile to get to it. Used to be Croisen \& Scenic, |
| 3118 | access | but now I have to go Skyline. |
| 7270 | access | (note) somewhat. I am not on a main street so I would have to walk about 4 blocks |
| 5076 | access | (note) I have to walk for almost a mile. |
| 7495 | access | (note) My kids use them |
| 7248 | access | (note) I would have to walk 3/4 of a mile and I don't see how mass transit could do any better. |
| 6094 | agree1 | (note) wish it ran a little later <br> (note) Done away with students program. they should be reduced or free. some kids wanna transfer |
| 6141 | agree1 | because of the bus. Didn't use blinker to merge. need to move closer to the curb. |
| 8274 | agree1 | (note) they need to look at the demographics |
| 3478 | agree1 | (note) That would be for my mom's house in 97301 <br> (note) several years ago the stop was across the street from my house and now it is 3 blocks away. They |
| 7270 | agree1 | changed the route. |
| 2060 | agree2 | (note) We got a hold of cherry lift for a ride to an appt. and they could only offer three hours before appt. (note) I'll tell you why: there's a lot of people who like to go shopping on the weekends, some have medical or dental appointments on Saturday. A lot of people depend on the bus to get to work. A lot of |
| 3076 | agree2 | people had to quit because the bus service ended. (note) the buses are empty most of the time other than rush hour and its a waste of money. Maybe if |
| 8145 | agree2 | they could extend the hours to evening so 1 person isn't walking the streets. (note) especially the recover people needing transportation that would encourage attendance cuz they have to leave 45 minutes early in order to catch the bus from the area of Center St and D St. and areas of the |
| 8255 | agree2 | mall. <br> (note) It's a loaded question. It might be important to some people but not when you have to pay so |
| 3475 | agree2 | much for it when there aren't many people on it now. |
| 6094 | call | (note) too long of hold time, small windows of time, don't like it. |
| 6141 | call | (note) Daughter uses med trans. once a month. She rides alone. |
| 3379 | call | (note) One of my friends uses it but I've never asked about it. |
| 7198 | call | (note) I don't have nice things to say about Triplink. Triplink is unreliable in connecting drivers with clients. Showing up late or not at all. <br> (note) Cherriots is not accessible/useable/rider friendly and have no use for it. Its a waste of time. I am sure it good for those having transportation needs. I would like to see it run on weekends and I would like |
| 8158 | CARTS | user friendly. People need the bus 7 days a week to get to work. (note) that's really nice to know because I work in a prison and released inmates could use it to get back |
| 7270 | CARTS | to homes. |
| 7457 | CARTS | (note) when I am heading out of town I get stuck behind them. |
| 3076 | Cherinfo | (note) Need to know the times of the buses; sometimes need to go to three or four busses; need to get to the doctor and I take five buses; would like to know the times. |
| 6136 | Cherinfo | (note) Voted to get Sunday service, ended up losing Saturday as well. |
| 694 | close | (note) Reached a cellphone user on a landline list. Tract: 1502 Block group: 3 Block: 3. |
| 7158 | close | (note) in jefferson-20 years |
| 8190 | famil | (note) If I have a family member that is visiting and doesn't drive they can still get around. |
| 3416 | famil | (note) Used to use them, but not now |
| 3088 | famil | (note) I voted for every Cherriots measure that came up. <br> (note) I live by a high school and without the Cherriots, I don't know how they'd get to school. We have |
| 3118 | famil | schools come across town by bus. Plus a lot of my neighbors take the bus. |
| 6083 | Hello | (note) Respondent refused to talk but said, "I will tell you the Cherriots in our area is awful." (note) doesn't start early enough to get them to a day shift job. Doesn't run late enough to get people |
| 6124 | Hello | home from a swing shift. |
| 9300 | Hello | (note) This person while driving was hit by a bus once. |

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Nołes

| 9246 | Hello |  |
| :---: | :---: | :---: |
|  |  | (note) If it were in downtown, it would be good. But, in the 'burbs, everyone around has a car, so there |
| 3175 | import | isn't any reason to use public transportation |
| 8255 | import | (note) for someone who rides it everyday, I need it on Saturday |
|  |  | (note) This art of Salem I don't see many people use it. I don't know why they don't use smaller vehicles |
| 8274 | import | that use less fuel. There might be one or two people on the large bus. More economical!!! |
| 7029 | import | (note) Its just not possible. Because too far away. not enough riders. |
| 7248 | import | (note) where I live there is a bus stop and I do see people using it. |
| 7342 | travel | (note) I recommended it to my nephew who is in HS. Learned about from career training |
| 8240 | useconnc | (note) I don't live in West Salem |
|  |  | (note) My granddaughters take it during the summer to the bookstore, the library and so on. My daughter used |
| 3088 | useconnc | it during the bad storm just last month. |
| 7268 | useconnc | (note) they better step up their advertising game because it might be handy for some people to know it exists. |
| 9071 | weekend | (note) if were not able to drive, would use the services more than likely. |
| 3175 | weekend | (note) If I utilized the service I'd say it was very likely |
| 8270 | weekend | (note) I don't think holidays are necessary |
| 3103 | weekend | (note) I used to ride it all the time |
| 7268 | weekend | (note) I am advocating they do run on weekends. |
| 6141 | medtran | (note) Daughter uses it |
| 3379 | medtran | (note) Never heard about that |
| 6141 | rating | (note) 2 because of the weekends issue |
| 3118 | rating | (note) The lack of weekend hours drive me crazy. |
|  |  | (note) my granddaughter uses it for work all the time. Her only complaint is sometimes the bus is a couple |
| 7244 | rating | of minutes early and she misses the bus. |
| 2106 | rider | (note) three times a year |
| 6094 | rider | (note) doesn't ride a lot. it is easy to ride, but will need for school. |
| 3388 | rider | (note) about 5 times per year |

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggested Areas for Cherriots to Go

None at this time.
I don't know of any not familiar enough
I don't know
None.
It would be nice to have a bus go down 14th between D street and Market, then I wouldn't have to walk four blocks. People are upset that certain routes got shortened or cancelled completely. In the morning need more stops/times, pick up/drop off. afternoons not so much a problem.
I wouldn't have any feedback on that because I'm not using Cherriots.
I don't use the bus so I cant answer this
I don't I have enough cars that I don't need to ride the bus
as far as Salem goes its covered by the 8 and downtown where 8 takes you.
none
I cant think of any.
fern wood drive on the hill
there aren't any
Not that I'm aware of, the bus goes to a lot of places just takes a very long time because of the number of stops.
Cherriots doesn't run on Sundays, I would use it to get to church if they ran on Sundays. When I drove I'd take people all the time and not think anything of it. Church of Jesus Christ of Latter Day Saints, 45th; go down Lancaster and turn on; drawing a blank on it. I'm new to the area, and I'm going downhill; would like to go to the public library; it's on -- don't know.
I wish there was a connector Salem to Portland, from the Keizer transit center to Wilsonville near Portland; that's all.
The bus goes by but they don't stop: Portland Road north after they get to Hayesville, about a $1 / 4$ mile where they go past a great big trailer park where there are a lot of people in it - have to walk beyond that to catch the bus. Park at the right hand side, they turn left and then they go to Keizer; they come back a couple hundred yards and there'd be no trouble to stop there. I'd love to - can't think of that road, the road before Wars - as the bus comes down to Trapper and go back out on Ward, and down to Cordon rd. Had no bus service for 4 or 5 years; the bus to Keizer from my area is about three blocks now. Would like to see it on 47th; the loop would be only 3 minutes.
I am not familiar with Cherriots, and because I'm not familiar with it, I wouldn't go on it. All the things you've told me makes me think about maybe I should investigate it, because I think I might actually use it more often or even at all. I didn't know all those things were out there. That are available. know that they should make the information known to people.
I'm not that familiar, Humane Society; Turner Rd, about going towards Aumsville. The hinterlands; the outskirts Cordon rd. Businesses

The problem is that I live within walking distance of downtown.
None
I don't know
humane society
no opinion
none at this time and have a caregiver to drive me where I need to go.
I think everything is covered. cant think of anything
maybe buses to Portland
couldn't tell ya
just doesn't come is your area
not practical to get to west Salem. hardship
Keizer
none can think of
river rd. south
Woodburn, Nothing else
none
lockwood
RESEARCH

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggested Areas for Cherriots to Go

Eola Rd, McNairy High school, River road south, nothing else
west Salem, doctors appts,
Airport, river road south, river road north, not on the mainline you are out of luck. Cherry Ave. Used to be available. walk 4-5 blocks to catch a bus. Keizer station was built yet less routes.. McGill crest used to be 30 mins now an hour.

I don't know
No areas. I don't care for the buses, and would like to see them gone.
It' doesn't stop on our street which is Idlewood. I'm not sure that I would use it.
Not sure. No this is a response. I don't know.
downtown and my house and that's about it.
No I could not identify them because I don't use 'em.
cant answer because limitations to downtown.
I really can't think of anything.
I cannot think of one I don't know of any.
does not take buses, to help people children and a lot of bags. Buses are used as a last resource.
no problems service at this time.
I wouldn't ride the bus so none.
I don't know, I can't speak to that at all since I don't use it.
I am not aware of any.
Doesn't apply because we use our car.
Live in So Salem near Sprague HS and don't have any reason to go anywhere. Nothing over there I need to go too.
No, I guess not.
No, I don't know of any.
I have no idea what their current routes are.
None, I don't know I don't use it.
\#6 bus route are not adequate. Walking $1 / 2$ or $3 / 4 \mathrm{mi}$ to get to \#21 route and walking Retail and Fairway and have to get up to
8100 Madras for \#21. Its a mess. Walking to \#21 is sometimes faster than waiting for \#6. I can beat \#6 and destinations on my bicycle. I don't know other than they need to fire the management.

8101 Between Silverton and Lancaster, Lancaster and Center, and downtown and an occasional shuttle to Portland Met System
There isn't any
Put the bus stop back at the mobile home Starlight Mobile Home on Lancaster Drive
it just takes to long and not convenient, so I drive...its to inconvenient, use to take bus with toddler, and took to long over 45 minutes... its not friendly to pedestrians, better about bikes, would take over nothing else. none at all, not interested. none at all.
pringle; could be served better, they took two bus stops about 2 blocks from us, pringle st. and copper grand.
rural areas are always problematic, to the end they are working to expand in the Keizer area and Polk counties. I am familiar with will be trying to reach out to other areas.
I DONT KNOW
none
No, not at all.
I don't know, don't know the bus routes well enough, You are most familiar with the north end of Keizer, don't have any suggestions. no I do not have any.

I just don't use it.
I don't really have any because I don't ride the bus.
I don't know anything about it.

## lockwood

## APPENDIX - VERBATIM GPEN-END RESPGNSES: Suggested Areas for Cherriots to Go

6001 I've never used em I wouldn't know
no I cant
I wouldn't
no
wouldn't be able to answer that
cant think of any
none
I would not use the bus at all
Fred Meyer Keizer. Salem Health Winter St.
None, I don't use the services.

No, nothing. Specific needs I don't know.
I can't think of any at the moment.
Minto Brown Park, that's the only place I can think of.
nothing at this time.
no idea has not used
not at all
not at this time
No. Nope.

No. No.

I don't know. I don't anything about it. Salem.
I don't know. No I don't remember. Amtrak but if they do then that's it. don't use it again.
Not applicable
I have none at this time.

MAY TAKE A BUS TO WILSONVILLE, AND HOOD RIVER.
ITS UN LIKELY FOR TO TAKE THE BUS.
not that I'm aware of.

Carts goes out to gates doesn't stop at the hospital. nothing else
no cause don't really know, only place would go would be downtown and bus goes there

I live in south Salem so a bus needed to get to mall and medical center

I would be interested in the downtown area such as Marion and Commercial.
I don't use the bus or have any intentions of going anywhere by bus
I am not for sure like what I said I have not rode the bus in awhile and they have changed routes.

I can't think off hand. if you need to put in something, I feel homeless shelters, independent living retirement communities. transportation to Kaiser South occasionally, for appointments, or a need to get there.
there bus stop at Portland rd. and Hazel Green street, for seniors
the McNerra states in Kaiser we homebound because there is no transpiration from Cherriots at this time.

I obviously don't know, I don't know the whole route. I just remembered that it was difficult to get transfers, switching buses.

I don't have an idea on that because wherever I go I don't have a problem.

Yeah like how about west Salem rush college road, we have no service there. No consistent service between Wilsonville and

I don't really have any I've adjusted my schedule to the bus and it gets me to where I need to go. If they don't have one going to

I would like to go to downtown Portland by bus. and that's it. the one time that I did take the bus and it took over an hour so I

I believe it's 4040 Fairview Industrial, Salem to 13th and Shoreline Dr in Keizer.
no it seems to be very convenient, within a block a two from where I am.
lockwood
RESEARCH

## APPENDIX - VERBATIM ロPEN-END RESPINSES: Suggested Areas for Cherriots to Go

I don't really have any. but when I was working it would be nice for Cherriots would stop at state street. having to walk 2-3 blocks parking isn't convenient.

6009 I'm not familiar with the routes.
6010 Honestly I don't know.
6011 Buses run everywhere. everywhere I see a bus, I can pretty much get anywhere.
6012 Cordon road, That's it for me.
Capital city business center, that's it. I just want to be able to get to and from work.

I don't have any suggestions because I don't know the coverage
NO
River Rd So. no service provided here and a lot of new housing going in but other families that would access it if they had it I don't know any not at this time over 10 years been watching buses go down the road with 2 people wasting money I don't use the service so I don't have any areas. I would like to see it on Ironwood st maybe on Sunnyside near loninoke would be good because its close to schools for kids. Even the Sprague HS for the kids who don't have transportation yet. I think Baxter and commercial rds. or Sunnyside and Baxter. Close to residential districts and stores (highly population). The fairgrounds if they don't. The rural areas at the south end. If it were avail and people could see buses coming through and cut down on traffic/pollutions.
the outskirts of town need more routes
Albany Oregon does not have Cherriots they need them. Corvallis would be good because of college town. They would use buses students.

I couldn't really say. I only moved to Salem a few months ago and have not used the bus here.
I'm not going to use the bus, I know people that needed, but I don't really know at all. I don't ride it, I just know there's no Cherriots service Croisan Creek Rd and Valentine. I've never seen a bus in that area. and just that.

I don't have any I don't use Cherriots.
I can't think of any, I drive
I don't know
Unfamiliar with any of that because I'm not a user of the system.
I don't have anything.
I don't really know.
I need it to go to salemtown. I don't know of any others.
I've never seen any buses on eola in north Salem. that's all I can think of. I don't have any

None. I don't use the service at all. I can't really I am assuming hospital (Salem) I have no places in mind. I wouldn't use it. I don't have any locations I would add.

I don't know of any. Not the I can remember.
The only one thing I saw was close that I saw had a little bit of problem was over by the mall in Lancaster. I sure don't. The bus used to go right by our house by Mill, I used to ride it a lot more. Then they moved it to 17 th street. I still don't who is not getting the service they would like to have.
No I don't know. reception problems.
I haven't looked into it so I am not sure. No that's all.
there use to be a bus stop near, in the sunnyslope area, people have to walk quit a ways to catch a bus, I don't know how they connect with other areas... Battle creek, rees hill road. It comes every half hour but it makes for a huge loop. Otherwise it takes forever to take bus. Add weekends.

## lockwood

## APPENDIX - VERBATIM ロPEN-END RESPONSES: Suggested Areas for Cherriots to Go

None. I like going place where the masses are not. I have no use for the freaking bus
I honestly wouldn't know because I haven't had a need to ride it. Downtown Portland. work zip is 9301
Have no idea. Only been living in Salem for a short period of time.
I can pretty much get where I need to go but getting home is a problem because they close to early.
None
I personally think that you cover everywhere I have needed to go.
Let me think of places, I don't know of hand I have not been keeping track.
Hawthorne between Mission and State street, there is no stop there and nothing near it.
I would not be able to tell.
not at this time
pretty good job his wife, need weekend service
eastern cordon road, that side of town better.
I cant answer that question, I have lots of friends who do, and they seem fine with it..
I don't have any to offer.
sat and Sunday bus service
Portland service express service
the thing I always though they should do is transfer you should be able to get off one bus line on any location not just for bus pass folks.
Unknown.
Can't think of any places.
I cant think of any. outer west Salem.
I don't have any.
I don't know of any place.
I would say, the turner staten area. that's it
I don't know any other from Salem to brooks. Hospital in west Salem.
I wouldn't know just for the simple fact that the bus can't supersede traffic
I am not aware of any.
I don't need to I have a car, don't use them
I don't know I only use triplink don't ride bus.
Woodburn area and that's all I can't think
I personally would like buses on industrial blvd. for work. If there was a bus out by Sprague High School. Out by the Humane Society. For out of town to set up stops for non major cities, and that's about it. I would like for it to connect to the Portland Metro area. If there was one that connected to the Wilsonville Trimet. and that's all I probably wouldn't know the answer, your not familiar with the areas of service.
not really..
nope, there nothing for me.
I don't us it or no.
if I really wanted to, I could get around using the bus. the bus goes up to Wilsonville and the least convenient for you. south Salem to Lancaster. More direct routes. West Salem to Keizer. Commercial to Lancaster. should be a direct bus. If they were all connected directly it could cut time.
vocational rehab. no more.
I don't have any.
nope
The croft center, I think it gets everywhere pretty adequate. nothing else
Laurel Springs stop at Crestview and Salem Height and Crestview and Madrona. Near SS Office if they don't have one. It requires walking on a street with 45 MPH and no side walks. Disabled people are in danger.
lockwood

## Appendix - Verbatim apen-end respanses: Suggested Areas for Cherriots to Go

No. I can't think of any.
I'm not much help there. I don't know
No. I don't know.
None. I'm independent.
there's no areas I can think of.
nothing
I don't have any
Portland, airport. Special events or parks in the summertime at silver creek falls.
None.
doesn't apply. I'm independent.
IM not aware.
west Salem high school.
Safeway in West Salem at Rosemont and Edgewater. My doctors at Wallace and Orchard Heights. and that's it.
I don't really have any.
None that I can think of.
Downtown near the public service building on Capitol and Court. south side of town isn't very convenient. Over on Corina Drive there needs to be a stop. and that's all. wouldn't need it.

Can't think of any.
none at this time
no
currently all places I need to visit are served by routes as they stand. knowing as I have a medical capability I would use it more without having to go thru many routes to get there.
I don't have any
the airport or Portland.
doesn't go out where you live salemtowne,
I cant answer that
hard to say cause not to familiar, stoneway dr is where I live and hard to get a bus there
Commercial by the Ford dealership
I suspect all the locations I would go to are serviced by the bus, but not in the frequency I would like; I would like the bus to be more than 30 minutes; and how to tell if the bus has already gone by or not

Art Fair at Bush Park;
Morningstar community church 27th St SE; Wed evening
Portland Rd and Hazelgreen to connect
I don't know what areas are served.
I don't have anything to say.. no areas that I'm aware of. I cant think of any.. I'm not aware of any. I don't have any need to....I travel by car. Liberty and Keubler Salem. Can't get to the buss stop a mile from my home. 48th and Herron. Probably to my dentist Smilekeepers on Lancaster over by the Dairy Queen. Probably to the Lancaster Mall. none, I never use it. I really don't have any particular place I would want to ride the busses. I have no need to want. no there is not. I know nothing about Cherriots.

## APPENDIX - VERBATIM ロPEN-END RESPGNSES: Suggested Areas for Cherriots to Go

5014 Saginaw south, no others.

[^2]
## lockwood

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggested Areas for Cherriots to Go

 the cherrylift is a curb service that will get you to anywhere you need to go, I would like to see hyacinth street better served.4058 They don't have any stops along there and that's the route. city wide/after dark they should be looking at stopping every couple of blocks. there are times when I will wait for a co-worker, so I don't have to ride the bus after dark.....

## APPENDIX - VERBATIM ロPEN-END RESPGNSES: Suggested Areas for Cherriots to Go

4111

I have no idea
I wouldn't ride it on my own time, also it doesn't service west Salem H.S. are Sprague high school, it should serve the high schools. not that I know of.

I couldn't answer that.
No
not aware
It would be cool if they go into the cascades.
Sunnyview and Howell Prairie. State and Howell Prairie.
It would take me hours to get anywhere on the service. Its just not happening
I have no clue. They have always gone where I needed.
I think probably there are times when people have to walk. In north east Salem there could be a few more stops near schools like Silverton road. That's all I can think of.

I can't think of any.
I wouldn't use it so it's fine.
Corden road there the bus stops are really far apart and not within walking range.
I don't what areas they don't service.
I don't know. Maybe my daughters office by west Salem.
I can't remember any. A stop close to my home like stops I would like to see one going down all the way on browning. would like to get from home to town, out river road, the stops are a mile or half mile from my home. see the bus on kuebler to the keizer permanente.

I have no idea
I don't have any.
Madrona and Crestview is close to where we live and really need a stop.
there needs to be a connector to Portland or Eugene. and That's about it.
Can't think of any.
I don't have a problem with any of that
With our health conditions wouldn't want to have to ride again.
I don't use Cherriots so there are none.
None
The only places I go to is the doctor. Commercial/Salem Hospital
None. because I don't use the bus.
There wouldn't be anything because I would probably just use it to go downtown. I would like to have service from Salem to Woodburn.

There is no service in main line (main street?).
Not familiar.
I can't think of anything. If I took the bus to work it goes in such a way that it would take me forever to get to work (Union street route).
There are no stops in royalty street. We would like it if the bus ran from royalty directly to downtown.
None

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Additional Comments for Cherriots

211 No. Goodbye.

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Additional Comments for Cherriots

54 no.
no

Chamber's of commerce more advertising.
I covered the things that I needed.
no just wish them luck in raising money.
I personally do not use the service, but the service is very important. When Seattle used public transportation. not at this time.
no thank you
no, no. Were good.
Nope, there isn't anything.
no, I think I have covered a lot of information and I don't think there is anything else.
Nope.
No, I don't have anything else.
Nothing I can think of. I don't use it.
No, I think I covered everything.
NO You can't record what I want to say.
No, thank you.
No ma'am.
yes, I am not comfortable with giving this kind of information over the phone.
no, thank you , none at all not at all. no that's it, I don't have any.
no, that's fine.
they need to have a better dialogue with their community, and ask for bonding, they didn't prepare for this, and to pay the bill, so that it could be understood and as to why.
so, for the local micro-beer fest, and volunteer activities, they a should be trying to advertise for alternative ride sources to get home from these events.

No thank you and I'm glad you captured the idea for the cable cars.
Nope, Thank you
Nope
Questions did not pertain to me. Get better questions. Since I don't ride the bus. Nor is there a bus stop within miles of my house..
Just the one about the hospital.
no until I start riding the bus again
moved to Salem after living in Portland for years and shortly after moving they cut off weekend service and so makes it hard to go places. and moved the bus stop four blocks.
hope they get more funding
not really already did
none
curious to what happened to advertising on buses for extra revenue to expand services no none

Making the Cheriott lift for those that worked hard enough in their lives to be on Medicare should be a priority. no, talked out.

Mass transit is extremely important for those people working in the core. If they have to transfer, it makes no sense to spend that kind of time getting to work each day. You might as well drive to Portland.

## APPENDIX - VERBATIM ロPEN-END RESPロNSES: Additional Comments for Cherriots

Everything that I have seen is safe and reliable transportation. We need to see /have weekend busses. Um, no I think that I covered everything.

Its a great service in the community for the people that needs it and I hope the service continues.
hear from a lot people they are appreciative of service, and are upset when weather disruptions happens it stresses out passengers.
I don't have any other comments.
nothing to add at this time looking forward for when you do need to use Cherriots
no keep trying to get funded.
I do not have any other comments
in a hurry not at this time
not at this time
No I don't.
No, I guess you asked me about areas they don't serve. windsor island road, and it doesn't go that far. I don't think the city recognizes it for being within the city limits.
No. Have a great day.
Nope.
No that's it.
Have them model the Lane Transit district system because they have a good system in Eugene. Because they have weekends, they also have transit that takes you to rural areas, and they have service after 11 pm which makes it easier to get home from the bar.

No.
when it comes up to voting time putting a face to the people that ride. It becomes a fight between the businesses and the one's fighting against this don't know how it is affecting all the people who really need this service. We need to see the faces of those who really benefit from their services. there's so many people who can't work without this service and with out this service you will be on state assistance and that would cost tax payers dollars so it would cost them more then if they had the proper funding to do what they need it would be a good thing not a problem. taking that away will cause problems not help save tax money

Nothing really.
No thank you nothing.
I REALLY APPRECIATE CHERRIOTS ,THEY REALLY HELP WITH TRANSPORTATION FOR MY FRIENDS AND DO A GOOD JOB.
none.
none..
none, that's about all.
nope that's good
No not really. that's pretty much it. as I said I've been riding buses before I was born.
Nope I think I said it all.
No that's it
Nope but I appreciate the call.
nothing at all
nope
no
NONE AT THIS TIME
nothing didn't already tell you
none at this time
no thank you would like to see them get there act together and quit spending to much when not needed, without cutting services no, I don't have anything else to add.

| 9007 | not at this time |
| :---: | :---: |
| 9081 | not at this time |
| 9097 | not more comments |
| 116 | No I'm good. |
| 199 | You have a great day, goodbye. |
| 2101 | NO I really don't wish I did. |
| 2107 | That's all. |
| 2152 | I think I got it all. |
| 3111 | No |
| 3175 | No |
| 6114 | nope, thank you. |
| 6150 | No not that I can think of. |
| 6204 | I would have to say, thank you for looking into bettering your bus service. |
| 6207 | nothing I can think of. |
| 8094 | I am fine. |
| 8125 | Chose not to answer optional questions and hung up so didn't reach this screen for her additional comments. |
| 8129 | No, thank you. I guess I am not really much help. |
| 8145 | Nope, thank you |
| 229 | No that's it. |
| 230 | They need to put out more information to the people out there. I know there is a lot of disable people out there, I have a lady that lives across the street and the only time she can go out is when her husband is there. I believe that they can do a lot more to reach out to people with disabilities and language barriers. |
| 263 | I think I really covered it all. |
| 266 | No I am good. I am work. |
| 279 | Nope that's it. |
| 4125 | no. |
| 3259 | No I need to get back to dinner. |
| 3264 | Go Trump. |
| 8190 | No I don't have anything else. |
| 8246 | Nope, that's cool. I am good. |
| 8255 | Boss was calling on last question. Person hung up. |
| 8268 | nope |
| 8270 | nope, we are good. |
| 333 | I think that's it. |
| 9138 | not at this time |
| 9140 | not at this time |
| 9194 | not at this time |
| 9219 | that is it. |
| 4195 | none right now. |
| 4210 | not at the this time. |
| 4211 | no, that's it. |
| 7105 | not at this time |
| 7126 | nothing else at this time |
| 7138 | very valuable service to those who need it |
| 2156 | I'm sorry I really don't have any. |

## lockwood

```
2167 I think that's it.
    6286 Ok.. no. The lives of chronically disabled people are hard everyday. Its taxing to have to go through all these loops.

592 oh no that's all I have
6 1 5 9 ~ n o t h i n g ~
6163 I don't think so at this time
6 1 6 7 no I'm great
6173 I would not oppose a tax increase to better Cherriots for environment and people can get there need to be no matter there
income and not wait to long at bus stops.
6 1 7 8 nope that's it
6 2 0 3 ~ t h a n k ~ y o u
I lived in Salem for 40 years and things don't get any better and I work wish less fortunate and they need affordable and more
convenient buses
6 2 2 4 ~ n o t h i n g ~ a t ~ t h i s ~ t i m e
7158 I am good.
7 1 6 1 ~ N o ~ t h e r e ~ i s n ' t
7234 NO, I don't have any.
3 1 0 3 ~ N o n e
3 1 1 8 none
3 1 6 7 ~ N o
3 1 6 8 ~ N o
4130 that the person who called me was polite.
4170 that's its.
3272 None
3 3 1 1 ~ n o n e
4188 that the interviewer was very persistent and kept saying thank you for your responses.
4 2 2 7 nothing that comes to mind at this time.
4236 no I don't think so....
6 3 0 3 ~ n o t ~ r e a l l y ~
6 3 1 5 ~ n o n e
6330 I don't think so cause don't ride the bus system
7265 No thank you

```

\section*{lockwood}

7270 I think we're good.
7342 I think I am great. Your services are valuable.
5299 No id don't think so.
5313 no, you've covered it all
5387 I don't have much else to say I don't know that much about them
5014 no
5020 I think you did a beautiful job.
5032 Saturday Sunday service is a must. Especially for church.
5069 nope, thanks for the call.
5076 Thanks
5088 I will ride the bus more often now. thank you for educating me. you were very nice.
5109 no thank you.
5503 nope. that's about it
8041 none
7435 No, that's it.
7457 Nothing further.
I think you are doing a great job but I am saddened about the amount of children I have mentored and could have referred and taught them more about the systems had they been made more public and known. bless there heart for having me make the call to contact people that could make use of these services without knowing and 6359 making better public contact with the ones who really needs the help with buses. most seem to be school kids and seniors and need to be more easy options without feeling stupid.
6382 no thank you
6387 none
6430 not anything
6456 weekend service!!!!!
6497 not at this time
4315 I'm glad to hear you are doing the survey and I hope it improves the service.
2145 I think that's it.
2157 great job, thanks.
2189 I think you did a great job.
2191 That's all.
6001 no its pretty straight forward
6018 I'm good.
6043 no I don't think so.
6058 no not today
6108 I'm happy with them
6110 nope already said it all
6133 no nothing
6136 none
2017 No, you got it.
2024 No that's all.
2030 That's all.
2060 That's all.
2098 That's all.
5033 no, I don't have any comments
5039 no I think that sums it up

\section*{lockwood}

RESEARCH

\section*{APPENDIX - VERbATIM ロPEN-END RESpanses: Additional Comments for Cherriots}

4020 none.
4054 that's it.
4058 Overall, they do a good job. Everything can be improved... They can't break labor laws or BOLE regulations.
4111 Would like to know if there is a bus between Eugene and Salem?
4115 none.
4128 no.
5036 nope that's all.
5062 no thank you goodbye.
5072 Thanks for calling!! best of luck to you and Cherriots
5147 nope
7003 No, I'm good.
7029 Additional ones. Steady bus out or light rail line to Wallace and Kuebler back into city to expedite transport.
7198 No, not really.
9066 At this part she hung up phone.
4129 no.
2137 that's all.
2139 I think we got it.
2145 No, thank you.
2165 that's all.
2180 that's all.

7294 I think we about covered it.

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to Improve Service}

Quite pleased with the current level of service.
Getting people to recognize, a public awareness program to educate to users. I really can't think of anything else I don't have anything. I would like to find out more info. I haven't rode the Cherriots since a teen.

I don't have any suggestions.
Calling people and asking questions where they are and what they need. Here's the problem they broke the publics trust by asking for money then "finding" 100,000 dollars that was backwards upside down and made it hard to trust them. The fact that they areas that have the most need for patients. They need to adjust the times to accommodate those who truly need it and don't have any other options for transportation. I think that's about it.
I noticed that a lot of the buses maybe have 0 or 1 passenger maybe they could survey how many people ride to which stops to create a better system using less busses gas etc. that are unneeded. Nothing else.

No clue
I don't have any
the tidiness of the buses I think a lot of that comes with it being such a big system. I think that is hard to fix and they are old an worn.
I don't know of anything
add Saturday hours
I have always thought that they could work with the school system, and if they had smaller vans maybe they could afford weekend service

I think they need to have more of there stops covered, and I think they need to put more places to pick up people They need to run longer hours for people who are working especially. Weekend service would be great. That's it The weekend travel would be one thing; I think that's about it.

I don't have any suggestions.
Free transportation for seniors and handicapped; seniors can't get it at all; they have all this money from the lottery so I don't understand why they can't do that. Get the money from the Dept. of Transportation. 65 and older for example. Put it down out of the legislature and give it out as a bond measure or whatever. They can improve it a lot, and that's why some of these buses can't go in the other areas. They don't have the funding; if they can get it through the State taxes, they can improve it for the bus system. I would like to know what's out there; it would increase their ridership if and it would be nice if they would advertise and let people would participate.
Look at how Portland buses work; I can go to Wilsonville and park my car and get on a bus and take it all the way there to Vancouver Washington, but I can't get to my friends house sweigle rd.
Get more money; it's very difficult to set up a tax base; you have two different tax bases in two different counties.
I have no suggestions; I don't know.
I don't have an opinion
weekend service
campaign just ran for payroll tax provided good info but don't know how they can convince people the service is necessary. because I work odd hours my car is only option
no Sunday service, expand to 24-7 a week and cover all areas especially outlying areas, need more federal grants to support it call wait times need to be better to get service, see what difference between Portland and Salem and how they operate there system
nothing for me, but for other people weekend services
stop cutting routes,
we need to run another money measure to pay for extended services
need weekend service for people
more services and weekends
running on the weekends
operation on weekends and to river road so No, they seem to have everything in line.
lockwood

\section*{APPENDIX - VERBATIM ロPEN-END RESPINSES: Suggestions to Improve Service}

211 No because I don't use it. No.

4199 just the weekend service is critical to people at the bus stops, I understand the bond money in necessary for weekend service..
nothing else
More frequent service (every 15 minutes), nothing else
none
none
We live in Keizer, we drive river road all the time, traffic slows and stops with the buses along river road. traffic has to stop. That sometimes is pretty frustrating because you get caught behind the bus. The buses have to stop and it would be nice to have pull outs.
4 I think get turn outs on all bus stops so that buses don't stop traffic
In my case more stops, no stop in idylwood. I'm not to sure where the best stops are in idylwood. The current stop is two or three blocks from our street. and it is up a hill.
35 No. No, I'm not sure. It is difficult for me because I don't use the service.
Adding weekends and evenings and early morning. where I grew up, and that was in the 50 s , I had bus service until midnight from 5 am , and every 15 minutes, and every weekend, and I still consider that normal, and it is not the same here.
the only thing to get 7 day service. A lot of people are suffering because businesses are suffering because people are unable to get there.
Run 10 hours 7 days a week or some cut back on the weekends but still make it available on the weekends. An easier way to understand their schedules and stops. The last time I went on their websites, it was very confusing and hard to find routes and schedules. Maybe a search that allows you to put a to and from gives you a suggested route.
71 ask more money, that is it.
more buses and drivers and more routes. More safety lean shield sheds covered from the rain. Sometimes people are out at night walking and buses came for night hours. If there were air conditioning in the summer hotter months. Also heat in the winter colder months.
not at this time.
Again, unknown. The only thing I can think of is weekend, senior, and disabled access. Nope, can't think of anything else Marketing. Strategic and straight forward, not complex. Focus marketing. Like for me personally, if they were smart there would be good.
5 I really don't have anything
Nothing other than having them ran on Saturday. No, that's it.
Weekend service so people could get to church and school kids would probably be able to get around too. If they could make it pay to have weekend service.
62 More routes because I live further away near the school Candelaria. Nothing else.
I guess just get more information to the community. I didn't know anything about it. No, that's it.
I don't use it so I couldn't say.
More information of services they provide getting out. I am really no help because I don't ride it.
Have improved the system since they got rid of the one long through town. NEVER on time. Get rid of current management and get someone in there that knows how to run it. That's pretty much it. And I would vote to give them anymore money for weekend or anything else if they can't take care of what they have. Not really that is pretty much it. Any votes for more money I won't support. Weekend service even if its reduced service. I think they do a pretty good job with everything.

Shut them down and save my tax money.
I think they need to give better service with hours and places.
I don't know...cost to much for budgeting, ticket are reasonably priced, because the cut the service on weekends, is an expensive proposition, have faster service. Could be convenient, would not have the foggiest. need to earlier in the morning and run on Sundays. to be aware of changes, don't always look out for what areas and bus stops are needed, that the service is different than Portland, they brought in others from another area to make these decisions.

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to Improve Service}

4203 no
Downtown is becoming more diverse. Cherriots would benefit from railcars. Across downtown grid, to edgewater, and west Salem

No not really. I'm not an expert. They tried to get money for more service and nobody wanted to pay for it, so I guess, try again. that's it.

6305 No Nothing
6322 I don't have any
6342 nothing else.
7187 weekend service and later at night service
7228 I don't know. when I ride a bus Portland people thank the driver but not here.
I would like them to have more routes and weekend service
none at this time already let you know
7306 no
7339 I know they cut back services for disabled folks is a hardship on them, how many stops they had and weekend service
7355 increase fairs, so more funding to provide more services
7380 I don't have any
8120 None
8134 Triplink is messed up. Length of holding waiting is unacceptable. I booked trips for patients and it is wasting money and not helpful. I don't enough about it but I know its very important to the community. If I knew more about each of the services I might use them.
8140 They need to advertise more. I am not the right age now but in the next 5 years I will come to an age where I might need it and hope its still around.
I suppose that advertising towards people that aren't regular users as towards why they should use the buses. Public service announcements. I think the people should know why they should use it.
Closer to populated areas. Quicker routes between outlying areas without transfers. I am about 8 miles to transfer station, takes 40 mins to get to the bus stop down to the transfer station. I don't have 2 hours to get down town. Your system is screwed. If I live in South Salem and have to go 2 hours to get to an area that I can get to in 20 mins.
Weekend service would be great. They need 7 days a week bus service and maybe a little bit later say end it at 11 pm or something maybe even midnight.
Weekend, for sure weekends and Holidays. Have busses on the weekends and Holidays, there is no service now. That's the main deal with me. We need to have community transportation every day of the week.
I believe its really important to have bus service on the weekends. because the people that don't have their own transportation
8190 some of them still works jobs on the weekend. Help economy by being able to shop downtown. This also affects the elderly that don't have transportation. They would be able to access restaurants also downtown.
More of a community presence, letting Cherriots get it across to more people what services they offer. I think that. More of a social presence, advertising say like on Facebook.
Better neighborhood service south southeast and its hilly. And you have to walk up and down the hills to get to the stops. Better service for the communities that are hilly.
9188 I don't know.
9197 I have nothing more to say.
9198 do not have any right now.
9213 need more money, to upgrade bus lanes. to allow pets on buses with good rules.
9226 I do not know
9227 nothing at this time
92367 days a weeks 16 hours a day of service
251 I don't have any suggestions, since I don't ever ride them.
278 I honestly don't know, but it seems that people like it. No.
286 Maybe they should take to the streets on the surveys. be on the buses, and talking that actually use the buses.
311 Have Saturday and Sunday operation hours. Nope.
I just think it should be more available, you could not have a car. I don't see buses. It doesn't seem like there are a lot of options. It doesn't come often enough.
Commuter travel between Salem to Wilsonville. It is impossible to have a ride home because there is no bus service after nine o'clock, or on weekends for that matter.

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to Improve Service}

396 Just to have Saturdays and Sundays service, that would be nice. No that' about it.
One thing that has been a problem is there is no way to know if the bus is late. If it snows it would be nice to sign up for a notification or a way to look up to see if they bus is running late. When it was snowing if I knew that I could walk to a covered area that would be nice instead of standing in the snow for 45 min because I didn't want to leave the bus stop, didn't want to miss it. If they could increase that communication that would be awesome. and that's about it.

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPONSES: Suggestions to Improve Service}
and ride the bus and go party. not get pulled over for a dui. I can take the bus and then pick up my car the next day. 11pm would be fine for a last service. give people a chance to get home.

I don't have any

Sunday service because that is the day that some people need it and its not there. That's it.
None.
I guess for people like me that don't know, make people aware of what they do offer. That's it.
I don't know. They need to do an analysis of their entire program. I feel they are out of touch with the community and as a tax payer I think their direction. There needs to be some boots on the ground and see what's really happening. Makes 0 sense to 145 spend millions of dollars of transit expanding. Outside of the core hours it is scattered and needs to be capacity. They need to look at core times and lessen times when bus is not being used. I don't feel that Salem is as open minded as Portland. They just put bike lanes in and Salem and no one bikes. They took a whole lane away. Sore subject on spending more money on transit down to (note) sore subject for taxpayers. There definitely needs to be public transportation for those that don't have the means to get around. Running errands you have to carve out an entire day if you use a bus so it doesn't make any sense. Experience with grandparents who used it and then they took away the stops and they could no longer handle the timing and routes of buses. It would take them 3-4 hours.
I can't since I don't ride. It seems like they run a good system. I know it is a highly needed transportation system for our community. I am not a voice of expertise.
Seatbelts, I think there should be another helper, specially if there are any disable persons on the bus. I believe the bus should be clean, they literally have to wipe things down.
I think that they should, I know that Eugene has a good service, to get with them and see how they make their service work 7 days a week. and ask other communities to see how they do it.

No I just believe it is a essential service. It is good quality.
I can't think of any. Nope.
could consider improving their weekend service, and possibly run later in the evening, like for younger people working later that need to get around, and when they end the service at 9:00, there is still a lot going on..
Add weekend service. The mobility special service such Cherrylift is rarely on time.
First of charge the riders what it actually costs to operate instead of whining about tax dollars. Personally I wanted Cherriots to shutdown, they were trying to get taxes imposed on small businesses, but the rest of the taxpayers said no we are not giving you any money. I think they should be should've shutdown for trying to get taxes imposed on small businesses. I am a small business owner.
Personally, put information out to the public just as I am sitting here and know nothing. Marketing more of the services they provide. That's it.
I keep hearing them reducing routes and they should be increasing. Last time I was in Salem talk about shorting times and routes. If you are going to service a community, serve a community. Have to be in all the way to be of any service. That's it Little bit of extended hours would be great and Saturday and Sunday would be great so the people that work on weekends could still use. Boss is calling I have to go.
The only thing I say is I have a disabled person who gets very nervous when they talk about changing and canceling routes. That is her only mode of transportation. That's it. covered bus stops put back. The bus stops more clearly marked. Instead just the small little stand with the bus route number on it, have a larger indicator.
Weekend service would be excellent. To improve the frequency of some routes. For the routes to operate at night hours and longer hours
they need to go back to have earlier routes in the morning and evenings as well as weekends.
none
not at this time
nope
working with possible tri-met in the Portland are to try and schedule they're routes accordingly, also to add Saturday and Sunday to their schedule.

I don't know.
I don't have any..
security of bus drivers due to crime need to keep a better eye, more cameras needed. communicate with local govt partners better,
having a route book all under one book not separate pamphlets
I really don't have any idea

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to lmprove Service}

2167 I think Sunday service and Saturday, just weekend service. That's probably it pretty much goes where it's needed.

6313 No, Its really good bus.
6314 The weekend is really all I have

6465 I don't have anything. I don't really have any.

6573 Management changes. stop wasting money. Better service for the money that we pay
2323 I don't know really.

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to Improve Service} from Kaiser downtown. Could the bus be downsized to cut costs?

Number one: don't make people pay more than one time to go on two different buses. \(\$ 1.60\) is already expensive. All day ticket of 3 dollars is also expensive. The other is that if they are going to have this connector service, it seems like they should make it more more stops closer to people's houses. Use smaller buses at less peak times. and if they could have a online service where you put in your addresses and it shows you what routes to take like an online route planner. Make the fare cheaper.

571 I could not give you an answer. Don't know.

\section*{APPENDIX - VERBATIM ロPEN-END RESPINSES: Suggestions to Improve Service}

591 Be open seven days of weeks regardless of how many people need the bus.

Saturday service, it would be so handy to go downtown on Saturday or anywhere, I live in an apartment complex and I don't have a car so it would be so much nicer. I see Carts the smaller buses and pick someone up then 5 min . later another will come and pick someone up and that costs money. funded is most major. Serve it more like a taxi so it's not scrutinized. and that's it.

2052 They need to run on Sunday and longer hours during the day. and That's all.
I would like better protection for the bus driver. Sometimes people yell at the bus driver. for the police to be able to respond instantly to incidents on the buses.
I don't have any input that way.
add Weekend service and after nine 9 service.
Have buses operate earlier like at 6: 30 am.
I think add weekend travel.
I see Carts the smaller buses and pick someone up then 5 min. later another will come and pick someone up and that costs money.
It's too accessible to the one's using the service and they aren't paying, most are on public assistance. It needs to be more user funded is most major. Serve it more like a taxi so it's not scrutinized. and that's it.

I have no suggestions service on the weekend
The buses are empty. Get rid of the buses, because it's a waste of money, there's not enough people who ride, they're spending way to much on this service. and that's all.
I've never ridden Cherriots but once in this last year; I'm not familiar enough to make a criticism or a commendation
they should start serving donuts
They need to market it more to the seniors, like at the residential homes, so that they don't always have to use the home vans, like Bon Adventure
no I don't.
it would be nice if the went later in the evening, for people who need to get back and forth from work.
I don't have any, maybe to have more information, like more information on the services, like for a the doctors or the veterans office... they should be more service around where you live, my route is Dearborn. extend hours is the biggy, weekends and nights
I think weekend bus service is very important, shorten wait time to book rides thru tripLink, drivers could be more friendly and wait for residents,. stopped using punch cards, transfers are not easily accessible
weekend service and more stops
no I don't at this time
Possibly more frequent on routes. When I rode the bus in Portland they came every 15 to 30 minutes and here it is an hour.
Add night and weekend service is important. Having more bus stops is important and getting location quicker is important.
I have no clue. I not never used one.
I can't think of anything. I couldn't get the connector within a certain time frame, I don't know why I was not able to book during a certain time.

There are actually courteous and kind. The buses are pretty good. No suggestions.
Change the schedule so that they can add Saturday into the system.
Saturday service. Stops at more places. Have them run long enough more evening hours.
Weekends, they need weekend service most jobs require weekend service and it compromises their job if they cant get to a job. also its hard to get to the job and day care the weekends and the holidays, so bring back the weekends and the holidays, because cherriots stopped running and its detrimental to the downtown community, especially to people without vehicles and youth
I don't have any at this point
they need to extend their hours especially for people that are working night and weekend shift, they need to have more shifts more frequent stops

\section*{APPENDIX - VERBATIM ロPEN-END RESPINSES: Suggestions to Improve Service}

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to lmprove Service}

Pamphlets come in the mail once a year with new bus schedules and Programs you offer. I didn't know these programs even existed.
would be nice to have more help for seniors and maybe brochures at doctors offices and easy to understand they are a group of people who really need it. also Sunday service for church and other places.
2 more press to get out to people to use sat and service and Sunday. opportunity for discounts for students and HS and college.
I don't know any
couldn't say cause don't use it
weekend service, for people who have to work and kids to go anywhere and depend on buses and have to taxi or etc.
I think they should have weekend service because of shopping or church.
I think the evening and weekend service could be restored.
More routes to residential areas. West Salem should be less time to wait to get across the bridge, it only runs every hour. and that's about it.
I really don't have any. I appreciate that they are there. and that's it.
Need to make more people more knowledge on the need for public transportation. More marketing to get the word out. They do a really a good job. and that's all.
1 The buses are too empty, they need smaller buses, they're never full. and that's all.
I have no suggestions because I like the service.
Where we live the stops are very far apart. some stops are very far apart. But then there other stops that are so close to each other and there should be a little bit of space between them like a block more. Add weekend service. Add night hours.

99 I have no suggestions. I believe everything is fine. The bus is well-maintained.
Add they should run more often. Instead of running they should be there every 15 minutes. Get smaller buses to get there stops way more often.
Add weekend service. The hours worked for you. I can't think of anything else. nothing comes to mind.
weekend and evening service important, so many people responding negative when comes on ballot.
I would say having weekend and holiday service.
nothing today
none
I work as a councilor, tri-met did a screening for medical transport and see able body people taking advantage of that service and if freed can give more help to folks that needs it.
weekend and week day evening service, flex pass for ridership not a full month
weekend service and bus stops that are more in the hills of south Salem
General public needs to know costs and how to ride. why are they running a big bus that's empty, they cost more to run and need to be filled. I think that's about it.

I drive so I really wouldn't know.
run on weekends, that's all. I would actually throw in tax money to make that happen. and yea that's all.
Weekend and evening service. I think that the feeder idea in Salem is a good idea but not having availability on weekends makes it difficult. They should allow animals, how can I take my pet to the vet or dog park if I'm not driving. That's all I can think of.
Weekend service and run later at night. Expanded bicycle carriage/storage. that's all.
probably time of day, the only services I see so far that come in start at 6 or after in the morning.
have them run on Sundays that would be a big one. their used to be Sundays, I believe that we can afford to have them run on Sundays, if we budget our money in a different way, the budget committee.
more hours to the times that the buses run, I know they're under financial restraint. I know they keep coming back for more funding, and I wish people would vote for it, its not under their jurisdiction to make these changes.
4054 oh they're all right , like they are.
if it were better, some the ways they implement services need to have more input by the drivers. Because, the drivers know where the riders need to come from in order to take the bus. Cherriots needs to listen the drivers. the planners don't listen to the people who knows what's going on (on the frontline. Its impossible, because of the time and distance for drivers, mainly cherrylift and carts, to have a break, and not go without lunches. These two routes are demand sensitive...
they should have it running on the weekend, that prevents people from using to get there when they need to get somewhere, I think they're doing a good job. You could get off at one stop and not have to pay going back the other direction. money could be used for better service then what they do, such as Saturday service, maybe the frequency of some services and the

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: Suggestions to Improve Service}

5036 The weekend service is important.

5072 The weekend.
5147 Smaller buses for gas mileage. and because people aren't filling them up.
7003 I don't have anything
The whole city is mucked up. This area is to sparse for too many areas to be served effectively. They need outlying connector points for people to park and ride. Then it needs to be every 15 minutes. And on weekends, people need to get to work and shopping on the weekends too. Government employees use up all the parking downtown. Maybe they should be required to use the service. for later evening workers such as restaurants
9011 Add weekends, I prefer Saturday but both Saturday and Sunday would be great.
9016 Add weekend service because particularly a lot of low income folk work on weekends.
9066 I think they need to run on the weekends.
Extend their hours of operations so that people working after nine o'clock can have transportation. Extend their service areas to other counties. I think they should operate seven days.
9182 Add weekend service. I don't know much.
Add weekend service because a lot of people needed because they can't drive anymore. or late at night either like at 10 o'clock or so. I think there should be some stops on minor. The stops are hard for elderly people or kids to get to and it could also put them in danger if they are so far.
I think they're making the information available, and making people cognizant of their service.
2137 I'm not sure I need more info.
I'm not sure, I get frustrated how the routes go, I wish they could figure out a better system, they need to run later hours, and that's all I can think of
More frequent service during snow storms might influence non riders to use it. They cancelled our route to Crestview because there wasn't enough riding but we really need that service here. More service to areas where elderly live. That is it. Weekend service. Not too sure about having to go all the way downtown to transfer to another bus, it's out of the way and that's about all I can think of.
2180 they need to budget, if they did then they might be able to provide more needed services. weekend service and that's all There should be later service during the week and weekends because it costs me \(\$ 100\) a week for taxi to get to work. During the

7256 Well we need it. Because there are people who don't have their own transportation.
I rated a 4 in the last questions because they are not too good on their advertising. Get the message out there. I definitely see the

Add weekend service, preferably Saturday. For example on Saturday from 6am to 6pm. Some form of 24 hour of service is needed in a city this size even if it is a little service. If somebody goes to work across town and needs to go downtown for work on the graveyard shift or a juvenile is stuck across town and needs to get home there should be some service.

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}

That there is a shuttle service available close to our home to take you to the transit. Easily accessible, it's a short walk from our house. That my brother uses it daily, he would have no other means of transportation, this service is very useful to him. My brother is disabled and relies on the bus service. He wishes it was available on weekends in some form. and that would be it. I'm certainly grateful for Cherriots.
They can get schedules online and find them in the phone book. There's a hub downtown off court street behind the county building. That is the central station from where to catch their services. I am not aware of their operations in the evening, haven't seen any as late as 10 and not available on weekends and that is unfortunate. The refusal for the American public to pay for services. They used to have a lot more serviced areas then they do now.
That it's a great transit system but I don't know very much I would suggest them contact them. It's an inexpensive option. I can't give much info it's been too many years since I've used them.
I would say that it provides regular bus service from early morning to about 8 at night. I know the routes in my area. I look at the bus and where they go I follow the bus physically. I know the bus runs several times a day Monday thru Friday.
I would tell them where to catch the Cherriots. When I started taking it years ago they had several stops and buses that they do not have now, one was the 10 X the one that took the high schoolers. The connections aren't as good as they used to be. a good friend who relies on the Cherriots now has to leave over an hour early just to make it to appts. The bus doesn't come close enough to her house. When it's nasty out I do not want to walk. when the Saturday routes were cut so many people had to scramble to find a way to get to work and destinations. Cherriots had reported that they needed more money for more stops then when that was provided by the public they said they had it after.
There's a transit system bus depot over by the mall, Lancaster, all over the place. They are very involved in the community and they are expanding services to the weekend. there's always a representative or board member providing info. and help. I think that's it. well I know where there bus barn is I know where there bus stop is, its of cheery avenue, I use to be with Salem school district so I know where its at
that the main office is downtown, that it goes by about every hour and where a couple of stops are.
I could tell them to look at the website I could probably guarantee that they have a route by there house.
I would tell them to get a copy of the schedule it wouldn't be for me but I'm quit old, so they would now what time the buses routes and times.
I would tell them that the buses run during the week and not the weekend. and that they run at night and where the station is downtown. I picked up the different routes that applied friends.
I would tell them that we don't have good service here, I think we should have it on Saturday and Sunday and I think we should have service up on the hill
102 I would tell them to pick up a schedule
It's a crazy system that doesn't work very well. You have to find a bus stop and then you call a connection bus and they call you on

\section*{about it.}

First I would ask if they have a vehicle, and if they don't I would tell them to look into Cherriots; I have a bus schedule. They have a bus here that will take people to doctor's appointments, shopping once a week; we have a bus here at Applewood. If they have a vehicle, they wouldn't have to know to know about Cherriots. There are some here who have their own vehicles, and sometimes I would get a ride with them. I'd ask them if they knew about Cherriots; if not I have a booklet that tells about it, and we have a bus stop right here; we have a bus stop across the street that goes one way, and another bus that goes the other way, and if they walk down 2 blocks they can take

3061 It's a good way to get to your job, that there's a north and south route all the way from north Keizer to south Salem. That's about it. First I'd tell them to call the bus station so that they could get the information that they need. That if you don't drive or can't drive, it's important to know how to use the system. Probably that's it.
I would tell them that the system is not very good; it does not meets people's needs. They don't run on the weekends. The schedule is not very good for people to get to work at odd hours; untraditional hours. From what I see, it isn't very good. That's all Read the schedule; be prepared to wait; have patience. They're not on time, because of our situation, there may be a handicapped person on the route; it isn't the bus driver's fault; the individual couldn't get loaded fast enough. Due to their handicapped. They don't go into residential areas; it would be a lot nicer if we didn't have to walk 10 blocks. Not easy to transfer to get to another area of where they're going. Everybody People have to go downtown to transfer to get to another address in their area.
That they run from downtown at Courthouse Square, but they don't run at night and they don't run on weekends. Some companies provide support for their employees to ride on some buses. The business is constantly in the news for underfunding.
It doesn't come out; one bus where are - not very often; M-F doesn't go past our street at all.
I don't know. don't know the stops
I could give them rate info, help with routes go where
service doesn't run late or on weekends may not fit your situation
its the only public transportation, easy to get to or call a cab. would like to see 7 days a week bus system . so many people depend on it

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}

9071 I would tell them pretty inexpensive they may have to change buses, but would to almost anywhere from bus stop. Never crowded. the bus station are very clean and staff is nice. Some access is not the greatest, but usual trying to accommodate. In the winter
where they could pick up busses and hours there
pretty expensive to ride the bus and don't know bus routes
depot is downtown and beyond that not to much
system doesn't come in our neighborhood and difficult to use, but a good system
available, only 5 days a week.
nothing
a bit far like qtr. of mile and long wait times for transfers
its reliable, easy access to downtown, great benefits if working there
various reg routes and redline, don't operate on weekends
One way is \(\$ 1\) and some change, and day pass. The bus stops are easily accessible, Bus Drivers are very sociable and nice, Nothing else
I would tell them that they need to take a pretty long walk to find the bus stop. Because if they ask me where it was, I would tell them where it was. 15 to 20 minutes. When we first moved in, there was a bus stop in front of the house, but they moved it. Its a bus service that runs mon-fri. If it were available on weekends it would be much more helpful.
Hub in downtown, Keizer, Salem, buses run every 30 mins. nothing else
bus pass at main office by the courthouse, bus runs every 30 mins , buses stop at 9 pm , makes it harder to plan.
They area major bus service in Salem, cherrylift for elderly, bus goes to spirit mountain.
I think its a good service. I think it operates pretty on time. In some cases extended services on Sunday. Especially for blind people. AT the time they wanted extended service on Sundays.
I really don't care for them. They don't have pullouts on busy streets blocking the heavy traffic streets, and empty buses and would rather not have public transportation.
I tell them that there is no bus stop. I can't think of anything they used to stop on our street but not anymore, probably because of lack of ridership.
In salem-keizer I see that a lot of the buses are empty, and I feel that it is an unnecessary service, because it is using money on something that is not needed in this small area
I used to go to the library and get reports for the buses, but they are not there anymore. They take the corners too hard, I almost fallen off a seat.

Is a valuable service in the city. My family uses the bus a lot.
where the stops not much more than that.
we used to have services to our area and now we don't and can't find one. The nearest one now is about 5 or 6 blocks away. You can find more information online. three blocks is a long way. Staff answers questions in a pleasant answer. If one doesn't know answer make an effort to get the answer.
the 2 route runs every 15 minutes. need more information to ride downtown.
Operate from 8-5. See them around town sometimes on the weekends. That's it
The service that I see the most is on Edgewater and Kingwood. Up in Eola I don't see them very much and we have apartment houses that can use them. I see them on Edgewater West that serves the seniors. I see them in central Salem. I lived in SF so I know what its like to have mass transit. Lets go with that. I think its \hard to get to Fred's from where we live to West Salem. Have to have riders to justify. More questions???
Hm, well I guess they would be told they run pretty much everywhere including here in Keizer and information can be found on line. Nothing that I can think of

We would tell them its good. Runs up and down are road every 30 minutes or so. I think its a good service. No, nothing else./ Your experience is limited to seeing them. Have no idea about routes. I never use transportation. I am odd survey taker. I know little to nothing about it.
That it is regular and comes through the neighborhood and get passes if you are in a certain category. And important for school kids. no, not really.
They are very useful Tickets are like \(\$ 3\). That's all I know.
I would tell them its public transportation they should look into if they needed it. I believe they have some transportation for disabled? That's about it.

I see it around and used to drive a city bus myself so I know a lot of people need it. I think that will do it.

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPGNSES: What Do You Know About Cherriots?}

You have to wait an hour to catch a bus. They are always late. One time the bus came 10 minutes early and went right by the stop. Split the number \#1 never coming to full length, takes too long to get across town. Have to connect at far away places to get to places that are closer so I ride my bike the main time. They took out all the \#6 bus shelters so you have to stand out in the rain. It seems they don't care about their customers at ALL about the customers. Its awful, as soon as I can I will have another means of transportation. Chris told him everyone is happy with the systems. And he has first hand knowledge. The only route needing fixed was the 11 rte. Too crowded needs to run more often. Its ins You can catch 2 different lines within 112 blocks and they will take you out to Chenekta or downtown to Lancaster mall. If you are on Jury Duty their free as long as you have your jury card. That's the only time I use it.
8 They are a waste of money I see them around and they are always empty.
I know that one of the people in this mobile home park used to use Cherriotts all the time and they took the bus stop away. And she personal experience with them.
there's a stop down the street, they don't run on weekends, and local transit service..
they need to get the internet to figure it out may not know how else to find out.
I live on a cul-de-sac, can take downtown and go somewhere, close to your street.
where the bus stop is, approximately where it is, not very close. and how far it would be to walk.
I could tell them to everything form how its structured, how to raise taxes, they have been successful, no doubt there is a need, for individuals who don't have transportation. I know they are trying to expand into the rural areas. their issues are the only time you have any involved is when they're trying to raise money, its something they haven't heard from me, I am an elected official. they cannot just sit around their board and talk to themselves. their director needs to be out there and talk to community.
you've got to go about 3 blocks to get it, or go down to the library about three miles to catch in.
convenient to the downtown are,
tell them if they had had to have it, probably a very mode of transportation, and they would need to figure out the schedules and routes..
the bus service occurs mon-fri, doesn't currently operated on weekend, they could look up the routes and times.
they're on time very efficient and get you downtown pretty quick. my sister uses it to get from downtown to the southside.
I would tell them to go online for more info. I would let them know there is a bus that goes Church Street. Also can point to the bus depot. Nothing else
I would tell them they can get a bus at commercial street. They also go online to get the schedule and the cost. It doesn't run on Sunday or sat. people were cheap and didn't vote for it. that's all nothing
Go online to look at the bus schedule. No bus stops within a mile of my house. might be one on river road
I'd tell em, yea use it, I guess. I don't know
to go catch it
I don't know
it has limited service and no weekend service I believe, I don't know how much they charge
nothing
if it gets you from point a to point b go ahead
Google it, no cause don't know what to say
it good and runs during the week
that its a bus that runs thru Salem
I would tell them there's a bus stop on this side of the mall and the other side of the mall and to down town. I know where they do the maintenance and its all kind of a weird system.
Its nice when I am going down town. Its a good deal. Traffic is growing and to go downtown is great and the many young that can't afford a car its good for them to get around. There's a value to public transport. When I lived in Portland I used to get around on it. Here its not easy to get to the store and not enough connections. The city of Salem has let the station become a homeless camp and its not a safe feeling. The reason why I didn't want my kids riding because they had to transfer there.
You would have to call and ask because I don't know anything about them.
I would tell them that there is a stop right near our house but I don't know the routes. I don't particularly care or feel safe with some of the people who ride the bus and I don't at all feel safe around the transit. if the want to walk 3-4 blocks to take an hour ride to get to downtown, that's going to take you an hour. To get onto another bus to get where I want to go.

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}
take. If you have an appointment they will tell you what time you need to catch the bus and/or what bus you have to transfer to.
I would say its a great Monday-Friday service and its a shame that they don't offer on Saturday or Sunday. We need to be top priority of weekend and evening services cuz many people that work need weekend and evenings, later hour busses.
Like I said my step son needs buss service on weekends. its user friendly and there are plenty of stops around the house. And the people who don't have transportation it is great but then again they don't have service on weekends. I would just tell them that its the bus service that runs in the Salem Keizer area and it reaches most areas within the city limits not rural areas.
I would tell them I like their services. They have busses for handicap people and they have hub system downtown. They operate on natural gas. They have places that you can park to catch the bus.
I don't take the bus. The system is down on Commercial Street and Madrona and Liberty, they could find transportation at those locations.
not accessible, if they walked a way three or four blocks just to get to stop is too far for seniors.
A little information you give the telephone number to Cherriots so they could gather more information.
call the office in Administration.
Mon thru Fri every 15 min schedule
they should try Cherriots because buses are clean and drivers are nice.
they have limited bus schedule.
Well I have an employee that uses Cherriots quite often, and I see them on the street, I don't use it.
I know they are in our area, I know that if you want to go to other areas there is a centralized area downtown, you are supposed to get a transfer to other area.
I don't know anything. I wouldn't know what to tell anyone from the fare, schedule, and stops. nothing.
At the corner of my house there is a bus stop, I got 11, 13, 9.
I would have to look at their website. I know that they exist but I don't use it.
That in only runs during the week and that it doesn't have late night hours.
That is easily accessible. That's about it.
I use them several times a day. I wish they had weekend services. my home and work is all on the routes of service. I am very and if they had more finding they could more. And that's all great service.

It's the local bus but I don't use the service I drive my car. nothing else
I wouldn't have much to tell them sorry
Go Google it. That's it.
that they run six days a week (it doesn't run on Sunday), and they can catch it within one block of my house, and they can get the phone number by looking it up online. And there's a transit system in Keizer and one downtown SOME OF MY FRIENDS USE IT FOR SCHOOL, IT VERY ACCESSIBLE. ITS A GOOD MODE OF TRANSPORTATION. TELL THEM TO GOOGLE IT TO FIND OUT ANYTHING. that I don't know anything about them. where the nearest stop is, where they could make changes on their ride...nearest to royalty, and downtown.

My neighbor is a driver for them. nothing else
Id tell them it has nice buses. most of them are clean air. natural gas. polite drivers. spacious seating. a lot of stops. always on time. available almost anywhere
I encourage for students. there are direct routes. go online to lookup routes. the buses are clean. that about it. not a huge fan, owned by the public not effective financially. Salem doesn't use the service like Portland. I would you it would take a long time to get anywhere. They steadily cut bus routes. you might have to walk a little further. sometimes some buses stop every block. too many stops. don't plan on catching the buses on the weekends.
11 They are pretty much available to go anywhere you'd like. its affordable. that's about it. The bus stop is around the corner. bus \#1 runs from here, my house to downtown. it connects to other buses that go to west Salem. and santiam. Woodburn. Dallas. no evening service. nothing else don't bother, they don't go where you need to go. they don't run on time. they don't stop. in my case is 20 miles from the chemeketa stop. where my office is now the closest bus stop is half a mile. 4900 north street. capitol city business center. Not much, they are a bus system. they have a central station downtown. I see the buses on the main streets. I would refer them to city of Salem website.
THEY COULD PROBABLY GET WHERE THEY NEED TO GET IN TOWN WITH A PROPER SCHEDULE. BUT IN YOUR NIEGHBORHOOD WOULDN'T HAVE LUCK

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?} go downtown and back, the timing is off and only one half hour and hour and not good schedules. To get to work at 8 would have to 6 am to get to work on time, a 20 min ride is taking 1.5 hours to get to location.

6114 I know they are public transit. I believe you call to schedule a ride. they also have certain routes and stops. I don't know any of the.
There's a bus stop down the street, happy street. I'm so bad with names. Adam Stevens middle school is easy to get to. there's a big transit center downtown. you have to pay with cash or change or get a bus pass. that's all.
I would tell you the Cherriots need improvement. weekend bus service. for people that have medical issues. no car. I have

4111 TELL them when I see them running around, they're empty.

\section*{APPENDIX - VERBATIM ロPEN-END RESPGNSES: What Do You Know About Cherriots?}
tell them to go on the web site and check the schedule for themselves...
It only runs Monday through Friday. You have different kinds of buses, express buses, handicap bus that you can call and do special arrangements, and old regular bus.
My of my good friends from high school drives the bus. I've been friends from 30 years drives one of the buses. Another friend no longer works there because he got tired of crap. Organization wasting tax dollars.

Nothing, honestly. Lets just say the first question is I won't know anything about it. I have no clue
I know nothing about it really
Except for the no weekend hours and maybe it could be open later in the evening. Accessible on the weekends,. 7 days a week. They are usually on time most of the time. if late not more than 15 minutes. I don't often have to wait.
That I don't know anything about it.
I would tell them that the routes are frequent and abundant. I love the bus system in Oregon. I am from Hawaii. They can get all the information off the website or I would drive them down town to the hub. Rather cheap compared to paying for gas, insurance, and car payments. The bus drivers are friendly and the buses are usually clean.
I only know the routes that I take, and I know their frequency, I only know about \(15 \%\) of the routes. I'm getting used to the new system, relearning the routes. I sometimes take the 8 .
the number 5 goes to Cedar street will get you to downtown to the transit mall, Lancaster street.
pretty sure can get bus passes. and get you downtown easily.
about routes go downtown good service.
I think there is a bus stop
definitely run Mon thru Fri. run only on a half hour bases.
I know where the bus depot is, both of them.
I would tell the from my experience that stops are readily available, zones are not in the outskirts, in the main area of Salem, it is easy to get around.
I like Cherriots system and set up working with disabled and teach them how to use it and get routes and bus passes.
accommodations were good for access to such people. we would ride routes with them to help them get around. very good to special needs folks. Timetable traveling that would help drivers and riders lengthen flash time on pink triangles pulling out. for safety aspect dbl the time to help prevent accidents.
I would tell them service is limited and nearest stop is over a mile away steep terrain but pricing adequate
from my understanding no buses on weekends and mon-fri better service
I don't know really, I would tell them that it exists.
That they serve Salem Kaiser area, and that it's public transportation such as CherryLift. and that you can find the schedules online. That's about all I know.

I have no idea.
there's a little too much bureaucracy in getting a lift. if you have all your tags you should be able to get service. It sucks that there's no weekend service, not Cherriots fault. buses are fairly convenient. Stops were located. the system is working rationally. but it could be better, specifically for disabled people. Charge a reasonable service. I support every tax measure. I'm willing to pay. I can afford to pay.
13 people older than 62 get a pass that gives you a discount. I will probably use it. that's it.
To move out. They're safe and get you where you need to be. Weekend service. You can buy monthly passes or daily passes. seniors and students.
I would tell you one is a block from my house. I'm inside a neighborhood and I see the bus driver that takes a break every now and again. it catchers my eye when this happens. south Salem area by the battle creek golf course.
I know the route that goes to state street. for the offices and fire department. easy to get to. \#11 for Lancaster so we can go shopping. \#17 terminal all the way to state street. \#7 close to the bridge. for my job
Tell them where the closest bus stop is I wouldn't be able to tell them the schedule. There's no problem finding a seat. I don't know when they run/time schedule
(note) years ago I designed the ad campaign for a person friend that used to run the system
They are very reliable but they don't run on the weekends or in the evenings. The main bus terminal is very accessible and that would be about it.

That they run M-Sat. every 15in. You can put your bike on the front part of the bus, and that's it.
I don't know much about them.
They are good quality, good drivers, and respectful people. They are really helpful, they have good services. Very respectful on time and very honest kind people. and that's all.

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPGNSES: What Do You Know About Cherriots?}
that's pretty much it.
I would tell them where the two local stops are, I just know where the bus stops are and you can go pretty much anywhere in Salem. and that's all I know.
the bus stops are clearly marked, and run hourly. and that there is a website, check out pickup times.
that you have a stop near your house, to go online to see which buses to take.
just that they exist, I would refer them to look online...
there are pick-ups on river road.
I know the nearest route, where the central stations is.
There's a bus stop by my house it gets you anywhere. It picks up every 7 minutes.
I would tell a new person in my neighborhood, the \#11 is the one you take to Keizer station to connect downtown. the bus drivers are very sweet most of the time. the buses are clean and well lit. the Keizer station makes me feel very safe, it has security but not at and a warm room to wait in if you need to transfer. there are restrooms And a drinking fountain in the station they are clean. the waiting area is always clean. The maps at Keizer station are absolutely impossible for me to understand, so I would tell them good luck with that. Its convenient for people that are taking the bus and getting picked up by a friend. carpool options. There is an emergency phone at the station.
nothing.
I don't know
Cherriots and underserved. its important. It doesn't have service 7 days a week. too limited of service. it is safe. you can get a look at the city because of the bus routes. Its not very convenient. I am appalled that there are no service on weekends.
They don't really come into my neighborhood anymore. Its like a mile from my house. Get on the website and see what buses come when because it may be more advantageous one to the other. They only do it on weekdays between 6 pm and 845 last ones leave downtown. The intermediate bus costs a couple bucks

I would tell you that if you want to use them to go to the website, because I have no idea what their hours or routes are.
I would tell them that it is accessible and it is close to my home.
I would tell them they need to Google it. There is a bus stop close to my home.
I have not used a bus in 25 years so I don't know.
nothing
I would say it as good options. all locations easy to get to . that's it.
I would tell you, I know where the rural and commercial stop. A lot of kids use it to get to school. that's about it.
The bus does not come to our neighborhood. stellers eagle.
Mon-fri. all day passes \$1 or so. they are everywhere. Bus stops everywhere. great drivers. courteous to me when l'm driving in my car. the buses are warm and clean.
I would tell you where Cherriots is located. tell you where to go to purchase tickets. help you look up where to find the route. Cherriots website will help.

Run on schedule. buses go downtown to the hub.
I would say that it is a bus service that doesn't run on the weekends might even go out to independance. Its not free.
Poor service. Not frequent enough. not reliable.
Where the bus stops are. They can look online for fees and routes. and I think that's about it, I don't use it.
That it's available M-F excluding weekends. There are a lot of routes. that's all I know
That's it's reliable. doesn't cost a lot of money, and that's pretty much it.
the bus comes frequently downtown but it's very inconvenient that there's no service on the weekend. There is a need to expand hours and that's it.

It's very easy to figure out. that's about it.
The number for the service center/ customer service and they can give you location and times. Nothing else I can think of.
its a good system mon - fri had to ride during jury and busses smelled bad and dirty
to get a schedule and where the stop is.
I would say number one when I do have to use the bus can look up on internet or Cherriots stations, where the bus currently stops are currently in our area, my son-in-law was on the board.
that they can get online info on bus routes easily travel on it
call em and use them, if I lived closer to town would use them more. I appreciate all the services avail.

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}

8575 it is Salem public transportation, that's all I know.
that I simply didn't know and to look at main mall downtown
wouldn't know what to tell them, but if able to walk half a mile I think good / Oneil.

That it's Salem's bus system.
they run mon- thru fri, and I would direct them to the website, transfers to downtown.
the nearest stop is a quarter mile away, I have no idea what the schedule is.

Its good and it runs pretty often. Its there when you need a ride. call for information. Stops at retirement homes.
I don't know
go get a bus schedule.
tell them not to life because they do not get you too far or on time.
that it exists
center is downtown and bus stops are all over. A lot of connections driving and read books. downtown.

Nothing. There is close bus station by chemeketa. are living off government funds. and that's about it. have any information

Is very handicap friendly; was better than now; used to have more stops and apparently have cut back; buses still go in certain places for me - Chemekata the mall, up by the store; stops close enough to my employment on Commercial
I know that they operate during the week. 30 minute frequency on the line by our house; bus 1
To look on the web for the schedule, and that is where the schedule would be. and we have two stops on our street; Park Meadow

I would tell them to look at where they were going for work, pleasure, shopping and see how it would work with their schedule with Cherriots, and then check out the website to see what busses they would need. Also see if it's worth their time, depending on where they're going how long it would take. Figure out how many times they would use Cherriots and then see if it's more cost effective to use a monthly pass. Also see if their employer would pay for a pass for them.
I would tell them that Cherriots has moved some of their routes, and (my friend is almost diabetic - she used to get the bus a half a block away and now she has to walk 3 miles to get to one. The bus used to be close enough to take it. I know they can't cover every area, but it's so distressful when you lose access to it. hazelgreen by the chemala school
the nearest stop to be picked up would be park meadow and river rd. and I would probably go only to find the route.
the one in Lancaster goes north and south, so there are routes that go into the city, would have to look online for the routes or

I think it would be okay to have if they needed the service, that there is no service.

I could tell them give them an idea of the routes and where to go online to get additional information. That it is very cost beneficial. I would tell them that you can catch a bus at any of the places where there are signs to catch the bus. There is a number you can

I tell them they have buses that run here all the time. they run on either \(1 / 2\) hour or hour. A bus stop just down the street for me.
most of the buses run empty, and they allow drivers to blinder sunglasses that there driving vision is not safe. They also text while
tell them could go online to see schedule and pricing. Or go to bus station for routes.
I know I can go online and get some information. I know I can go online and get the connector. I know how to get the bus

I would probably they need to go online or call Cherriots to know what the schedule is. I know one stop on brown road.
I'll tell them the service sucks because they are not open on Sunday. and years ago they used to be open on Saturdays.
It's the little bus that goes around. I think you can call and they'll pick you up, geared more towards those with disabilities
Just the city bus system they seem to run pretty regularly, and are pretty active when they do run.
I guess the thing that frustrates me the most is that you don't have weekend service. You stop service at 9 o'clock.

I see them pick up at regular time. it seems to be good timing. I know where the closest location is.
They are easily accessible and they try to make the downtown station safe. It seems that most that use it prob don't pay taxes and

I probably direct them to the website and then id let them know there were a couple bus stops near by. because I don't personally
I say that they aren't funded well enough to be effective they don't receive enough revenue to support the hours and the routes
lockwood

\section*{APPENDIX - VERBATIM םPEN-END RESPGNSES: What Do You Know About Cherriots?}
the routes are convenient, its much easier to ride somewhere than to walk because I don't have a car. I would tell them what time it starts in the morning and what time they stops at \(9: 30 \mathrm{pm}\). I would tell them how to get to Columbia bank for example They are easily accessible and they try to make the downtown station safe. It seems that most that use it prob don't pay taxes and are living off government funds. and that's about it.
it needs to be improved on it takes forever to get anywhere. That's all I know.
It's a bus service, and don't ride the bus.
I see them driving around town with nobody on them so there's plenty of room. and That's it on that.
That depends on what they wanted to know. Do they want to know where they're going. If they want to know if I ride them. if THEY want to know if they're safe to ride, I'd say certainly.
Tell that if they needed a ride to someplace, they're the ones to set it up with. If I remember correctly, you're supposed to sign up with them before they can use the service to ride around.
I would say go down to the transit mall; it's sad that they cut back the weekend service; I work for the school district so that our school kids get a chance to learn how to use the bus system to get home. It gives them a chance of independence; and freedom so that they don't have to wait for someone else to give them a ride.
not very much, its available and I know where some of the stops, but not aware of the price and what the schedules are...
that I know where some of the bus stops are, and to go to the website, and that it doesn't run on the weekend or after a certain time at night.
that l've heard good things about them, and that they provide transportation locally. also that they medical transport and other things available..
that they help a lot to go anywhere you need to go..
I would tell them they are limited by weekends and late hours
the bus stops about 6 blks away.
to get a map and learn to be time efficient so you don't miss the bus. they changed the routes and times that its a good service but allow a lot of time to get where your going. its a safe choice
I don't know anything about them
I know very little. I know there is a route near my house down to the bus depot and an express bus between Salem and Wilsonville. Refer people to the transfer station down town.
I know what days and times they operate their is not nighttime or weekend service, I know they struggle with funding, I can get the bus routes on my phone.

To go to talk to someone else because I don't have clue.
I really don't know because I have never used the service.
I say the buses run during the day time and run pretty much every hour, some half hour. run in downtown to main bus station. fare under 2 dollars you can transfers, day pass. call a bus and it will pick you up. They are generally not very full, quiet and well kept. lots of routes.

Go to the website.
They just go to the salem-keizer area.
They are lousy is just far to walk to get to any bus stop, service stinks because there is no Saturday service.
I'm not sure, I really don't know to be honest
id tell them that there is a bus stop down the street that is the best option now if you don't have a vehicle of your own
I haven't used it so I don't know much about it so I wouldn't know what to tell in
that we don't have any service in our neighborhood, you have to walk about a half ;mile to get to a bus or more. The buses run on the hour out here I think they do

I don't know to much about it
I could show them where bus stops are, but don't ride the bus.
direct them to look up online to see schedule and stops
they had to cut back frequency but important to sat and sun service. would be in favor for better bus service to add to taxes that its a service thru Salem that can pick you up at your home if handicapped, more impaired people use the service that the transfer station downtown and routes
they are so limited but now cant get to places without a connector and weekends no service like for church
where the bus stops are but not familiar else

\section*{lockwood}

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}
have advertising on the sides of the buses anymore. I believe there are student passes available.
7161 They need to go down to the office and talk to them. I just found out I can get a reduced fair because I am old and disabled.

I would tell them it doesn't runs on weekends and service ends by 9 pm at night. They don't run on Saturday and Sundays. They are good but not enough services. All night service. Cheaper.

There's a phone number they can call. Then the people on the other end can assist them.

I would tell them how to access the busses and where; where the pickup points are, and the downtown terminal I know that they are in my neighborhood, I would tell them to go online to look for routes, and I would tell them where the stops are, and know that they're handicapped accessible and bike accessible, I would tell them that there was a change in routes, so I don't know if there's weekend service.
There's a bus stop close to the house; one of the main lines - Commercial \& Sunnyside. We don't use it yet but do think it's an important service of the community; we don't want it to go away.
They're fairly clean, reliable; I've never had any problem. Used to use them, but can't right now because I carry tools.
TELL THEM ITS NOT CONVENIENT FOR US IN THIS NEGHBORHOOD, its quite a distance for you, the time schedule wasn't convenient.
tell that its a city bus, and its 1.50 for all day pass, but it runs mon-fri, it use to run on Saturdays, but not anymore. Also route 25 was a free bus and all of a sudden they started charging. It would be nice to have the buses run everyday..

That it seems to be under-utilized and would be a good way to travel in the city. I see a lot of buses with very few people on them. You have to go about three blocks to get to a bus stop from where I live. There's always asking about funds; I think they need a total restructure of the budget. They don't have service on the weekends, and Salem is a \(24-\mathrm{hr}\) city now. I don't think they've used the funds the way should be. If they want more taxes out of me they should show me that they're doing their job.
there's a handicap service, and if you want take the bus it will pick you up and take you to where you need to go...
contact number to the main office so they could gather their bus loads, and they could also get their bus passes there. that its a little bit of a walk to the stop, but I find it to be a comfortable ride. it was a relaxing time to get to work when I rode the bus...

Familiar because our daughter used the bus and I needed to use the bridge to get to her house
that I've heard good things about them.
to go online and find services and don't run on weekends
they can get routes if need to use them but don't know where to go to get info
They can get you all around town. The stop is right down the road.
Tell them to go online. There is a bus system and is a great idea to use if you needed to. Too far to really try to use it for work. That it is our local bus transportation. They have routes that go all over.

I think cherriots is used for people that have difficulty getting around, handicapped and people that don't ;have vehicles first I would tell them to check the website, cause that has information about tickets and routes, the west Salem commuter or something like, they cut way back on the rout4s that travel up west Salem id tell them yes they go by here I'm not sure how often and it will take you downtown and you can transfer to another bus if you have to go to another part of town from what I understand
I've used Cherriots and they helped me with my disability.
I've seen them on Wallace road. seems like a lot of people ride them. Seems like they run on time. I just moved to the area so I don't really know.
I would tell them where and when the buses come. I would tell them it goers downtown.
nothing
I would tell them its a nice bus to ride. Clean. The drivers are nice and polite.
You can catch the bus on orchard heights road. high school students west Salem high school. that's it..
I would tell them where the bus stops at. great service.
I know where the buss mall is, downtown, I know where the bus stops are and I don't know what their rates are and the amount of time between buses but I do k now where to catch them so that is what I would share

I haven't used them, limited information
the nearest stop is and tell them they do not operate on weekends.
Go online and find out how it works.
Go to the website it has all the schedules there.

\section*{APPENDIX - VERbATIM ロPEN-END RESPGNSES: What Do You Know About Cherriots?}

4111 I know there's a bus stop across the street.

4128 to get the number or go on the website,

\section*{APPENDIX - VERBATIM ロPEN-END RESPロNSES: What Do You Know About Cherriots?}

I would tell them they can call the Cherriots office for all information.
I happen to have seen a bus directly drop off someone late and get someone with a disability to get where they need to go. Its a great system.
I would say that it runs fairly regularly. fairly dependable.
The buses are never full. its a waste of money. Keizer station is a ghost town. not enough people use it.
Go to their website.
They are the public transportation that collect in area. Have a hub in West Salem, Keizer, and downtown. If you are lucky to live on a route, you might use it or else you have to wait.
I would tell them about the times. They are really reliable/.on time. They don't run on the weekends.
(note) actually used to take bus until car/license
I know where the stops are, I know how to get the monthly pass.
I know it is vital for people trying to get to work and school and it's a very big change that we don't have service on the weekends.
I know they run Monday through Friday until 9 o'clock.
They run like every half an hour. On corner road they needs to be a bus there.
I know where the stops are but I don't know the times they come. I see cherrylift daily on my street.
Nothing.
I know there are stops about 2 blocks away.
It's about four block from the house. It can take you downtown you can get to any major place in Salem. It is really inconvenient to walk that far to a stop from my house.
its a good service and it goes to to the madrona area, just where we are I don't see the out our way, on home stead road off south river road..
to give it a try. the routes aren't the same as they used to be. It's a long walk to get to a stop. and that's all.
You have to go clear downtown to get anywhere and it takes too much time. I have a friend who doesn't drive and uses it all the time. I only use it when I have to go downtown. It goes pretty much everywhere, they are easily accessible. they are needed. and that's about it.
It's a long walk to catch it. We live 6 blocks from the nearest bus stop so don't really use it. that's about it.
they all run into downtown from different locations. Only service M-F, no weekend service. Transferring to another bus takes time. and that's about it.
Where the bus stops are, and to go downtown for more information. It's a good transportation system. the schedules don't always match up, they're not always on time. that's all.

Its a great service. Easily get around and gets to where you want to go.
I was very satisfied with it. Where the pick up points are in our area. They are dependable. on time
My knowledge is not current. I don't even know where the bus stop is in this neighborhood.
I wouldn't tell them anything because I don't know anything about them. I would tell them to call Cherriots
I would tell them its available and the cost is not too bad. I don't know much about it myself.
I would probably direct them to the hub of the station down town or give them the numbers. I would direct them to the website.
I would tell them there is a service and I suggest they call for information regarding service and routes.
It is a good service because I need it and it passes really close to my home.
I know that Cherriots is somewhat needed in our area.
I all I know about is a bus line.
I know it is useful for a lot of people. There is one stop right outside my apartment.
I know they have changed the routes before there used to be one from royalty to downtown but now they don't and so now they make a lot of detours instead of going straight to downtown.
I would tell them the closest stop to me Market St. I know about Chemeketa. I believe it used to run late, I don't know if it still does. Downtown is the hub and every thing goes down town and then back out.

\section*{lockwood}

RESEARCH

Attitude \& Awareness Survey Data Tables
2017

The first row of values represents the frequency, which is the number of times an answer was picked. The second row of values are the column percentages, which are the percentages of all the answers in the column that the frequency represents. Likewise, the third row of values is the row percentages, which are the percentages of all the answers in the row that the frequency represents. Percentages of total are the percentages of all the answers to the question represented by a frequency.

Questions with multiple response answers, in some cases, will have the percentage reflect the total number of responses, rather than the total size of the sample base. In these cases, percentages may be obtained by dividing the frequency of response by the total size of the base.
\begin{tabular}{|c|c|c|c|c|}
\hline & Total & Male & Female & The number of respondents \\
\hline \multirow[t]{3}{*}{Base:} & 400 & 200 & 200 & who answered this question \\
\hline & \multirow[t]{2}{*}{100\%} & 100\% & 100\% & Base \\
\hline & & 50\% & 50\% & \\
\hline \multirow[t]{3}{*}{YES} & \multirow[t]{3}{*}{\[
\begin{aligned}
& 100 \\
& 25 \%
\end{aligned}
\]} & 40 & 60 & - Number of female respondents \\
\hline & & 20\% & 30\% & who answered "Yes" \\
\hline & & 40\% & 60\% & Frequency \\
\hline \multirow[t]{3}{*}{NO} & \multirow[t]{3}{*}{\[
\begin{aligned}
& 300 \\
& 75 \%
\end{aligned}
\]} & 160 & \multirow[t]{3}{*}{\[
\begin{gathered}
140 \\
\hline 70 \% \\
47 \%
\end{gathered}
\]} & 70\% of all Female respondents \\
\hline & & 80\% & & answered "No" \\
\hline & & 53\% & & Column Percentage \\
\hline
\end{tabular}

\section*{CHI-SQUARE}

The chi-square value tells how likely it is that the two questions in the crosstabulation are related. In this case, whether or not the row variable is related to the column variable(s). The chi-square statistic is a measure of the difference between the actual frequency of response and the frequency expected under the assumption of statistical independence. If the variables are statistically independent, the chi-square value should be relatively small. If, however, the variables are not independent - if they are associated or related - then the chi-square value should be relatively large. The chi-square value and its associated probability are printed beneath the first column of each banner heading. The probability is presented in the form " \(p=\) . \(x x x\) ". This means the probability that the heading and row variables are not related is .xxx. For example, a .05 probability of not being related means a 95 percent chance of being related.

\section*{DIFFERENCE BETWEEN PROPORTIONS STATISTIC}

This statistic examines each banner column in turn. It compares the answers given by the people in that column to the answers given by everybody else. It indicates which of their answers (if any) are more different than everybody else's answers than could be expected due to chance, given the sample sizes involved. If an answer is significantly different, it is marked by one or more plus (or minus) signs at the bottom of the data cell. Plus signs are used if the group picks that answer more often than everyone else; minus signs if it picks that answer less often than everyone else. The number of plus or minus signs indicates the level of statistical significance. One means the .10 level, two the .05 level, and three the .01 level. For example, two plus signs would mean that you can be \(95 \%(1-.05)\) sure that the people represented by that group really would pick that answer more often than the people represented by the rest of your sample.
